COAL MEETING STAYS PEACEFUL

Check-off Disposed Of, Battle For Wage Increase Is Being Fought In Air of Hopefulness Is Apparent.

By Telegram to The Freeman.
New York, Aug. 16.—Peace appeared to be a certainty today when the conference called by the United States coal commission to avert the threatened strike of anthracite miners was resumed.

The way to resumption of negotiations with the operators has been cleared. It was announced by the miners' representatives, headed by President John L. Lewis.

The miners' committee referred to the action of the committee of operators, headed by Samuel D. Warren, accepting the miners' proposal with reference to the "check-off" system, which is regarded as the crux of the situation.

The miners, at their conference at the commission yesterday, had agreed to drop their demand for the "check-off" if the operators agreed to continue checking off for twenty cents the wages now charged against the miners' wages.

Union officials, including Lewis, expressed the impression they regarded the operators' acceptance of their proposal as a big victory.

So peaceful did the miners' officials regard the situation this morning that they announced they expected to go on their way to Atlantic City tonight to resume negotiations with the operators for a new contract, effective September 1, which were broken recently because of differences over the "check-off" issue.

At ten twenty this morning, the commission committee, led by Warren, went into conference with the miners. Later the miners were expected before the commission.

It did not appear likely that the commission would call a joint conference as previously been planned, but it was understood that the commission had achieved the desired result by settling the conflicting sides together.

Questions remaining to be threshed out at the resumption of the conference at Atlantic City are the miners' demand for a wage increase and the establishment of the eight hour day for the coal mines.

The operators, silent on the wage question, announced the 12 hour day will be eliminated as quickly as possible. This question, however, hinges on the nine hour day which is the present shift for many coal workers. The operators' representatives avoided mention of it.

NO DULL PERIODS AT EXPOSITION

Entertainment Program Provides for Afternoon Crowds as Well as Evening—Style Show, Auto Show and Other Features.

There is going to be plenty of music at the Kingston Exposition which opens on August 27 at the Kingston Fair Grounds, Inc., for the week. The Citizens band and orchestra has been engaged for the week.

Then too, there will be the Endicott Boys' band of 50 pieces which will appear Saturday afternoon and evening under the auspices of the Rotary Club.

Plans for the Exposition have been practically complete and there are but a few spaces available for the late comers. M. H. Herzog or Mr. Coe of the Chamber of Commerce, will dispose of these few remaining spaces and those who desire to come in should make early application. In conversation with one of the members of the committee which has the Exposition in charge he said that from present indications the Exposition would top anything which has ever been attempted in Kingston and that the week of August 27-September 1 would be one week of education, entertainment and fun.

Those who attend will be instructed and at the same time entertained in charge, looks for record breaking crowds both afternoon and evening.

Afternoon crowds are expected to be large this year as the entertainment program will be given in the afternoon as well as evenings. Rainy weather need not interfere as the tent provided will be absolutely waterproof and will be located but a few steps from the trolley cars. There will be ample space in the big tent which will have over 50,000 square feet of floor space.

Another feature will be the big style show which will no doubt be put on two evenings of the Exposition. Details for this feature are now being worked out and if possible two nights will be devoted to this attraction.

The committee in charge of entertainment has received word from the woman clown, "Wholesale" that she will be on hand at the grounds each afternoon and evening. Considerable speculation is going around as to who she is but the committee so far has made no statements other than she is "beat the band."

Mr. and Mrs. Ray C. Huling and their clown seal have been engaged for three afternoons and evenings Monday, Tuesday and Wednesday. The clown seal is by name "Charlie" and is a real actor. Mr. Huling has had this seal for the past 10 years and he is treated by Mr. Huling as though he were a child. This seal is highly trained and goes through his tricks as though it enjoyed them as well as the audience.

The Jones Brothers, Al and Harry, have been engaged for the last three days of the Exposition in their hand to hand balancing act.

Harvey and Frances will put on their singing and talking act the first three days of the Exposition, both afternoon and evening. The act is a good one and had gone big on the Keith vaudeville circuit. Mr. Harvey has full charge of the entertainment program for the week. The entertainment committee is working on other acts which may be announced.

CONGRESS WILL PROVIDE BONUS

Predicts Smoot, Next Senate Finance Committee Chairman—Will Be in Same Form as One Voted by Harding—If Coolidge Doesn't Sign Congress Will Pass It Anyway.

By Telegram to The Freeman.
Washington, Aug. 16.—Congress will provide a bonus for America's four million World War veterans as soon as it reconvenes, Senator Reed Smoot, Republican of Utah, next chairman of the powerful Senate finance committee, predicted today to International News Service.

Smoot declared he expected President Coolidge to sign the bill as it is enacted by congress but warned the measure would become a law, if necessary over a presidential veto. Smoot previously held a long conference with the president at which numerous government financial matters were discussed.

While personally advocating a bill providing a sales tax for raising the bonus revenue, Smoot declared congress probably would pass the same kind of measure enacted at the last session and vetoed by the late President Harding. The old bill was sponsored by the American Legion.

"There is no longer any doubt that the bonus will become a law," said Smoot. "There must be some provision however, to raise money to pay it. I personally advocate a sales tax but I rather expect the bill will be passed in its old form and I think that measure will be reintroduced in the next session."

"I cannot say for certain whether President Coolidge will sign the bonus. I expect him to, but if he doesn't, then congress will pass it over his veto. No man can block the bonus. It will become a law."

"I feel, though, congress should provide revenue to meet the bonus obligations. I recognize that farmers and labor organizations are opposed to the sales tax and as long as they remain opposed, it is futile to attempt enactment of any sales tax legislation. Nevertheless, in the near future, legislation involving the sales principle will be written into our law."

"It is the most just tax that can be levied and with exemptions I fail to see why any farmer or laboring organization can object to it."

BRITAIN SARCASMIC OVER ELLIS ISLAND REPORT.
By Telegram to The Freeman.
London, Aug. 16.—The report on conditions at the Ellis Island immigration station, made to the foreign office by Sir Auckland Geddes, British ambassador to the United States, as "played up" by newspapers today under such headlines as "The Tragedy of Ellis Island" and "Misery at New York's Gate."

The Daily Mail, commenting on the report said: "Intelligent Americans who read Ambassador Geddes' report will realize he has condemned nothing that is not revolting to the instincts of every civilized man."

"These things happen under the very shadow of the Statue of Liberty," commented the Star. "What a pity it is that America's moral lecture to naughty, effeminate Europe has to cross such a dirty door step."

DISTRICT SCOUT CONFERENCE SEP. 5

District No. 2, comprising the states of New York and New Jersey, will hold its executive conference at Roxmor Inn, Woodland Valley, September 5 to September 9, when 50 or 60 Boy Scout leaders from cities all over these states will gather to discuss their problems, instruct one another, plan for the future and compare notes generally. This conference has in the past met somewhere in the Adirondacks each year, but through the efforts of Scout Executive Nesslage of this county, the 1923 conference was secured for Ulster county. With many of those who attend will come their wives. Among those who are due to attend are C. A. Gammons, national Scout executive, Dr. George Fisher, deputy chief Scout executive, Lorin Barclay, national director of education of the Boy Scouts, L. L. McDonald, chief camp director of the national Scout organization, Dr. E. E. Fretwell, teacher of scouting and recreation, Teachers' College, Columbia University, and probably, Dan Board as James E. West.

ZEBALLOS TELLS WHY ARGENTINES STAND ALOOF.
By Telegram to The Freeman.
Williamstown, Mass., Aug. 16.—"A feeling of coolness toward the United States exists among Argentines," Dr. E. S. Zeballos, former foreign affairs minister in Argentina today told the internationally represented Institute of Politics in convention here. Dr. Zeballos blamed this feeling on the United States because it did not try to understand Argentine sensibilities.

"The official relations between the two governments are good," he said, "but among the populace there is an unfriendly feeling because on several occasions the United States has acted without the proper knowledge."

"One of these occasions was the sending of a naval mission to Brazil to assist that country in its military policy; another was the dispute about the 'Lexington' which lasted nearly fifty years."

Both cases, Dr. Zeballos maintained, rightfully gave the Argentines the feeling that the United States was partial to Argentina's exclusion.

Dr. Zeballos also charged it was Brazil's military preparations which wrecked the Pan-American Congress, and that the preparations were for the purpose of gaining supremacy over Argentina and the rest of South America.

INCE'S ATTORNEY SAYS STEWART WAS AGGRESSOR.
By Telegram to The Freeman.
New York, Aug. 16.—Much of the mystery surrounding the alleged attack upon George Stewart, brother of Anita Stewart, film star, by Ralph H. Ince, photoplay director, was dissipated today.

At the hospital to which Stewart was taken, suffering from a fracture of the skull, it was stated he was recovering.

"Stewart doubtless will apologize to Mr. Ince before this is over," Nathan Vidaver, attorney for Ince, said this morning.

The trouble between the men, Vidaver asserted, began when Ince spoke to an acquaintance seated at a table at Post Lodge, a hotel on the Boston-Post road, whom Stewart intensely disliked.

That made Stewart angry," Vidaver said. "All through the dinner he quarreled with Mr. Ince."

GASOLINE NOW SELLING AT 20

Gasoline is now being sold at all of the filling stations at 20 cents per gallon. The price dropped on Wednesday from 22 cents per gallon. The wholesale price is now 18 cents.

TEN ENTRIES FOR BARNYARD GOLF

The entries for the horse-shoe pitching contest at the picnic at Camp Walkkill on Saturday, August 18, are now complete. The following communities and organizations will have teams in the field:

Kingston, Rotary Club; Kingston, Kiwanis Club; Gardiner, Walkkill, Ulster Park, Kerkhousen, Marlborough, West Shokan, Clintonville, New Paltz.

The complete program for the day has now been worked out and is given below:

10 a. m.—Horse-shoe pitching, preliminaries.
11 a. m.—Girls' games.
11:30 a. m.—12:30 p. m.—Pie eating contest. Prize, \$5.
11:45 a. m.—Horse-shoe pitching, finals. Prize, Chamber of Commerce Silver Cup.
1:30 p. m.—Speaking. Gray Silver.

2 p. m.—baseball game, Gardiner vs. Kingston.
2 p. m.—Women's games.
3 p. m.—Water sports.
a. Boys' amateur swimming races, all boys under 15 years.
b. Girls' amateur swimming races, all girls under 15 years.
c. Adults' amateur swimming races, free for all.

Prize, first, second and third premium ribbons.
Life saving exhibition, Camp Walkkill Life Guards.
High and fancy diving, members of Camp Walkkill Corps, swimming instructors.

One of the best features of the Farm and Home Bureau-Chamber of Commerce picnic is the chance for all friends and neighbors to meet the people of the county.

The Kingston-New Paltz bus in addition to making regular trips will make special trips and the schedule will be published later.

HOT, BRIEF, FIRE AT FILLING STATION

In some manner gasoline became ignited and caused a big blaze for a few minutes in front of the Ulster Garage, Fair street, about 1 o'clock this morning. The tank on a freight truck of Hahn & Beers who run a line between Albany and this city was being filled by Harry Albrecht, an employee at the garage, when suddenly the gasoline blazed up. Harry Shultz, a former employee was in the Opera Lunch across the street and seeing the flame shoot in the air quickly ran to the garage and secured a fire extinguisher with which he got the fire under control while members of Wilkay Hose Company, next door, used chemicals in finishing the job.

The hose which was being held by one of the men of the freight truck was dropped by him and the gasoline ran into the gutter under the truck and on the sidewalk and became ignited. The point on the brickwork under a window and the window frame was scorched somewhat, as was the truck. Officer Hess, duty in the neighborhood kept those who had gathered away from the burning gasoline. A patent cut-off on the pipe attachment kept the flame from reaching the tank under the sidewalk.

EXPLOSION AT SCHAGHTICOKE

By Telegram to The Freeman.
Cohoes, N. Y., Aug. 16.—One man was killed and heavy property damage caused in Valley Falls and Schaghticoke today by two explosions at the mills of the Hercules Powder Company on Hoosac river, mid-way between the two towns.

Charles Matthews, aged 58, of Valley Falls, a workman, was instantly killed. Several other employees suffered from shock.

The first explosion came in what is known as the corning mill. The fire spread rapidly and a few minutes later a freight car, partly filled with powder, and standing within a few feet of the mill, ignited. Another terrific blast quickly followed.

Hundreds of windows in homes and business houses in Valley Falls and Schaghticoke were broken by the blasts.

The factory building of the Cable Flax Company at Schaghticoke suffered heavy damage. Many of the machines, it was said, were jarred out of line. Nearly every window in the building was smashed.

Officials have started an investigation to determine the origin of the blast.

The explosion was felt throughout adjoining counties.

NEW YORK PRODUCE MARKET

The following quotations are gathered on the New York city wholesale markets from commission merchants and other original receivers by the Department of Farms and Markets and represent prices farmers should receive less the customary charges and expenses. Prices for fruits and vegetables represent sales made up to 8 a. m. for other commodities up to 1 p. m. Wednesday.

Apples—Receipts of basket and barrel apples from the Hudson River Valley were extremely limited while Jersey offerings were moderate; demand fairly active; especially for fancy, large red fruit and moderate for green varieties; market slightly stronger for red and steady for green fruit. Hudson River Valley, all sections, Duchess per bushel, best, \$1.25-1.50; fancy, large, \$1.75; poor to ordinary, \$1.00-1.05; Williams red, \$1.25-2.00; Gravenstein, \$1.25-1.75; per double headed barrel "A" grade, 2 1/2 inch, Duchess, best, \$4.50-5.00; fancy, large, few small sales, \$5.50-6.00; ordinary and small, \$3.50-4.00.

Cherries—Supplies of basket cherries were moderate from Western New York points whereas Hudson River offerings were very light; demand moderately active only for fancy, large fruit in sound condition; market firm; per four quart basket, English Morello, Hudson River, best, mostly \$1.00; large, few sales, \$1.10; small and ordinary, 75-90¢; Western New York, all sections, best, \$1.00; fancy, \$1.05.

BAD LANGUAGE COST PINTAR \$20

In City Court This Morning For Disorderly Conduct on Shufeldt Street—Attempted to Assault Paul Sherin, a Milk Dealer—Other Cases.

William Pintar, who resides at Rifton and who keeps boarders, sells soft drinks, and also milk, was fined \$20 in police court this morning before Judge Groves for disorderly conduct on Shufeldt street about noon Tuesday.

According to the story as told by the witnesses who were examined in court Pintar and Paul Sherin, who has a creamery at 31 Shufeldt street, entered into a contract a few weeks ago whereby Pintar agreed to furnish Sherin with all of the milk from his farm at eight cents per quart. The early part of this week Pintar sent some milk to Sherin which Sherin claims was sour and so he sent it back to Pintar.

Pintar on Tuesday took his automobile and together with two friends of his, Luther Keator and James Pitts, came in to see Sherin about the matter.

When Pintar and his friends arrived Sherin wasn't in so they waited for him. Sherin, who had been at the O. & W. railroad station, finally came and then Pintar, in his way, began to talk business. According to Sherin he made a pass at him and came so near to hitting him that he knocked his cap off. Then Pintar began to use abusive language and Sherin wishing to avoid any disturbance went looking for a policeman. He found Officer Gus Kuhn in a short distance away and asked the officer to get Pintar away from his premises.

Kuhn went up to the creamery and found Pintar there. Pintar then tried to force Sherin in the creamery but Sherin wouldn't let him inside. Kuhn then asked Pintar to get in his automobile and drive away. The witnesses then allege that Pintar began to use vile and abusive language and as a result after repeated warnings Kuhn placed him under arrest.

After listening to the testimony Judge Groves fined the defendant \$20 which he paid.

Two Drunks.
James Smith was arrested Wednesday at the corner of East Strand and Broadway for being drunk and disorderly. He was fined \$5 or given five days in jail. Smith went to jail.

John Cramer was arrested on Wednesday on a charge of being drunk and disorderly. He was also fined \$5 or given five days in jail. He took the five days.

The case of Johnson, colored, who was arrested for assault in the second degree was adjourned until August 21, and bail bond fixed at \$1,000. Snyder who was assaulted by Johnson, is in the Kingston City Hospital with a fractured skull. He is expected to recover.

The case of the people against Westra and Mondaz, the two Spaniards who were arrested on Saturday night on Wall street for fighting, was adjourned until Tuesday at 11 o'clock due to the fact that Westra failed to appear. Judge Groves issued a warrant for his arrest and placed Mondaz in the custody of his lawyer, Frank W. Brooks.

SPANISH STORM BADLY DAMAGES TEN VILLAGES

Madrid, Aug. 16.—Heavy damage was reported today from storms which swept the Bullas Pinar Hermandad district.

Ten villages were partly destroyed and crops were ruined by hail.

The storm broke a heat wave during which the thermometer registered 128.

Dance at Saugerties.
At Lasher's Hall, Saugerties, an affair of Louis's dances will be held this evening. The Imperial orchestra will furnish music and there will be prizes for the best fox trot. Sherin's bus will leave central post office at 8 and Academy Park at 10 to convey local people to and from the dance.

Troy Brewery Closed.
The Troy brewery of the Hudson Steel Beverage Company was packed Wednesday by government agents for selling beer of too high an alcoholic content. The company is being fined for not permitting manufacture, but even with an alcoholic content of one-half of one per cent.

Blockade Continued.
By Telegram to The Freeman.
Manila, P. I., Aug. 16.—The intramural high commission today extended indefinitely the blockade between occupied and unoccupied Germany.

It was to have been lifted today.

Excursion Boat Sinks.
By Telegram to The Freeman.
Liverpool, England, Aug. 16.—Fifty persons had a narrow escape today when the excursion steamer Douglas sank in the Mersey river after a collision. The passengers were taken off in time.

Poincare Begins Writing Reply to British Note.
By Telegram to The Freeman.
Paris, Aug. 16.—The preliminary work of drafting a reply to the latest British reparations note was begun today under the personal supervision of Premier Poincare.

Foreign office officials said that in addition to answering the British communication point by point, the document will contain a concise resume of the French reparations viewpoint.

Bergdolls' Assaults Moved 'For Safe Keeping.'
By Telegram to The Freeman.
Eberbach, Germany, Aug. 16.—Carl Sperber, one of the men who attempted to kidnap Grover Cleveland Bergdoll, wealthy draft dodger, and who was removed from a detention hospital by Bergdoll, was reported today to have been taken to Bavaria. Bergdoll refused to reveal Sperber's whereabouts. Sperber was wounded by Bergdoll at the time Carl Schmidt, another of the kidnapers, was killed by the German-American.

AGUINALDO APPEALS AGAINST LAND THIEVES.

By Telegram to The Freeman.
Manila, P. I., Aug. 16.—Emilio Aguinaldo, former leader of the anti-American Filipino forces, today appealed personally to Governor General Leonard Wood to protect him against a hostile band that is trying to steal his lands by armed force. He accused a member of the band of being ringleader of the band.

General Wood detailed General Cram and Col. Johnston to investigate.

NEWBURGH ROTARY VISITS LOCALS

Thirty members of the Newburgh Rotary Club visited the Kingston Rotary Club Wednesday and conducted the weekly meeting of the Kingston organization in a very "peppy" and musical manner. A chicken dinner was served and after the cigars had been passed the gathering took possession of the Auditorium Theatre where pictures were shown of the boys' camp conducted by the Newburgh Rotary Club, the work of the camp explained and two of the camp boys produced to give an entertaining vaudeville sketch. After the entertainment in the theatre a number of the visitors went to the Twaitskill Club to show Kingstonians how golf really should be played.

New Source of Radium.
Parasite, a new radium-bearing mineral found in the Belgian Congo, was described in an address by the Belgian Professor Shof, who told of success in extracting radium from the mineral at an Antwerp laboratory.

Suffer from sunburn?
MENTHOLATUM
cools and heals.

Cuticura Soap and Ointment
Promote Hair Health

Shampoo regularly with Cuticura Soap and keep your scalp clean and healthy. Before shampooing touch spots of dandruff itching, if any, with Cuticura Ointment.

Sample Free by Mail. Address: "Cuticura Laboratories," Dept. 240, Malden, Mass. Sold everywhere. Soap 5c. Ointment 25c. and 50c. Talcum 5c.

THE OFFICE CAT

By J. J. Jones

Correct this sentence: "I haven't anything extra fixed," said the wife over the phone, "but I'll be glad to have you bring your two friends."

The easiest way to keep a wife from nagging at you forever about money is to give her some occasionally.

A man isn't presidential timber, however, just because he qualifies as a sounding board.

Diogenes probably wouldn't have had any better luck if he had been equipped with a searchlight instead of a mere lantern.

Nature Study.
You never hear the bee complain. Nor hear it weep or wail. But if you wish, it can unfold. A very painful tail.

Women are like alarm clocks, after you get one she is either too fast or too slow and is sure to go off at the wrong time.

The choir is not to blame for all the lack of harmony in the church.

For the most part, history is a biography of nuisances. The only famous fly is the one in the ointment.

If the newspapers printed all the misinformation handed or told to them it would be a continual foot race to the tall timber.

Here's to the girls, the good girls—Not too good. For the good die young. And we don't like dead ones.

The red "Stop" sign on the tail light helps some, but what we really need is something of that kind on the radiator cap.

"You have to be an ex-gob," testifies Neighbor Editor, "to get really the full enjoyment out of throwing a request for publicity from the sec-

retary of the navy into the waste basket."

Wouldn't this be a sad world if there were no boppers to poke fun at?

Christmas eve we wrap the presents we give and Christmas morning we "rap" the presents we receive.

The human spider isn't getting away with it as easily as he used to. The flies are getting wise.

Historical Sideights.
Eye to Adam: "Leave me."

They used to think that the man who wrote musical comedy must be crazy. Now they know he is.

Toastmaster—Gentlemen, tonight we have a novel program. We will begin by listening to a little song entitled, "Our Fares Shall Not Ring Tonight," sung by A. Conductor.

"Man Dies Just About to Drink." —Headline.

This stuff is getting more powerful every day.

PLATBUSH.
Flatbush, Aug. 16.—The Rev. F. W. Moot of Kingston preached an excellent sermon Sunday morning. He will preach again August 26.

A Rappleyea and wife of Kingston spent Sunday with his mother, Mrs. I. Rappleyea.

The date of the church fair and chicken supper has been changed from August 22 to August 23.

H. T. Huchabier has sold his farm to Brooklyn parties.

F. E. Swart has purchased a new Chevrolet five passenger touring car.

Miss Baisley of Tilton was a recent guest of her sister, Mrs. Charles Klothe.

The Gray Mouse Farm is entertaining 50 children at this time.

Gwynne Thomas is building the large barn of Fred Castiglione to replace the one recently burned.

N. C. Van Etten of Kingston spent a part of his vacation with Mr. and Mrs. Charles Davis.

BLUE MOUNTAIN.
Blue Mountain, Aug. 16.—Henry Snyder and family and Mrs. Margaret Snyder of Saugerties were callers in this place Sunday afternoon.

Frank Myer and family of Barclay Heights, Saugerties, spent Sunday afternoon with friends in this place.

Mrs. Elizabeth Hill of Lake Katrine is visiting her son, Clarence Hill, and wife.

Miss Hona Pekurney of Saugerties spent the week end with her parents in this place.

Mrs. Wilson Hemmel has returned home after spending a week in New York city.

Mrs. Frank Morone called on Mrs. R. Horne Monday afternoon.

Evelyn Schoonmaker of Pine Grove spent Tuesday with her mother.

Why Nervousness Is An Enemy to Health

Weekly Health Talk
By Froude & MacKinnon, D's. C.

Nervousness is an enemy to health because it prevents rest and relaxation. Nervous people cannot sit still, and therefore do not get the rest they should from a sitting position. Nervousness prevents sound sleep, and it is equally guilty of preventing concentration, or the ability to hold the mind on a given line of thought for any length of time.

Nervousness is caused by irritating pressure on spinal nerves. This pressure is caused at the spinal nerve opening by displacement of spinal bones from their true alignment. The correction of this defective alignment lies solely in the hands of the chiropractor, whose science teaches him how to detect such points of pressure, and how to make the proper adjustments to start the displaced bone back into proper position. There is no better method of overcoming nervousness than by chiropractic spinal adjustments.

HEALTH FOLLOWS CHIROPRACTIC CORRECTS PRESSURE ON SPINAL NERVES IN DISEASES OF THE FOLLOWING ORGANS:

SEVERAL YEARS' SUFFERING ENDED

"After several years' suffering from eye trouble, rheumatism and nervousness, and getting no results from medical treatment, I can truly say that I got immediate relief as soon as I started chiropractic spinal adjustments. Now my eyes give me no trouble at all, I am not bothered with rheumatism whatever, and my nerves are as steady as a rock."—Jack Green, Chiropractic Research Bureau, Statement No. 13508.

KINGSTON, N. Y., AUG. 16, 1923.

The Democrats, always opposed to party conventions and the old order of things, have announced a party conference to be held at Saratoga in September. But it will not be a convention, just a conference. Say what one will, the Democrats may be short on construction but they are long on comedy.

Senator Edge of New Jersey wants our overworked President relieved of a mass of wearisome duty by passing it along to the Vice-President. Many of the President's most wearisome hours each week are devoted to place-hunting politicians, and these can hardly be expected to put up with a Vice-President who lacks the power of appointment.

Mr. Coolidge is the first President from New England since Franklin K. Pierce and therefore the only Republican President to come from that section. For Pierce, who was elected in 1852, antedated the Republican party. He was a Democrat of the Jackson school and his Cabinet included Jefferson Davis as Secretary of War.

If the New York movie theatres think they can raise their price to \$2 and keep it at that figure, there is no law to forbid them, for they are not dealing in a necessary of life. But even confirmed movie fans, rather than pay that much, are likely in most cases to exercise their liberty and right to the pursuit of happiness in some other direction.

Though called the greatest achievement of its kind, Walker's swim across Lake Erie was easier than Henry Sullivan's swim across the English Channel. The distance across Lake Erie is longer, but Walker required only 20 hours and 15 minutes to cover the 33 miles, while Sullivan remained in the water nearly 28 hours and swam 56 miles in his effort to cross a distance, as the bird flies, of only 22½ miles. The greater difficulties of the Channel are caused by tide, fog and sea currents.

According to a dismissed employee of the state civil service commission and an examiner of the department, the employee was dismissed because of disobedience in refusing to pass upon applicants, basing their efficiency on their political endorsements. In his statement he declares he was directed by the president of the commission to make no "mistake" in the examination of one applicant who was friendly to Governor Smith. If he can prove his charge, there should be another dismissal in that department, particularly if the commission, as a commission, wants to retain any respect of the people.

VOLSTEAD EXPLAINS.

Unexpected words are quoted from Representative Volstead, author of the Federal prohibition enforcement statute. That he should have no misgivings as to the wisdom and ultimate results of his legislation is a matter of course. The cause for surprise is to be found in his incidental remarks. He is said to admit that government officials, bankers, merchants and judges occasionally indulge in the forbidden cup, but "what of it?" he is quoted. "There is no harm in a man's taking a drink if it is done in a proper way." He seems to see a difference because most of these people of wealth or standing bought their stocks before prohibition went into force. As to the workingman and his thirst, Mr. Volstead, as quoted, is less kind and more brief, as follows: "Well, he is more efficient and takes a keener delight in his daily toil than he did before, when he was subjected to the deadly lure of beer."

If there is "no harm in taking a drink when it is done in a proper way," what is more "proper" than that the tired workingman be allowed to refresh himself with a glass of real beer, particularly in view of the fact that very few men can drink enough beer to become intoxicated? Is drinking "proper" only when it is done or men of wealth who could afford to lay in large stocks on the eve of prohibition? Mr. Volstead seems to admit what he or any other man of his views would hardly be expected to admit—that prohibition is primarily for the poor men and

that prohibition succeeds if only the workingman's thirst is denied. Many have chafed and now believe this—and it is the cause of a great part of the unrest among the masses—but nobody would have expected Mr. Volstead to admit it.

Burroughs Nature Club Notes

Copyright 1922.
By ROBERTSON HOFFMAN CO.

What do you want to know about Nature Subjects? Send any questions of general interest to the Nature Notes Department of this paper, enclosing self-addressed and stamped envelope for reply.

Can You Answer These Questions?

1. Is casaca got from an imported plant?
2. I read your note about mound building birds and hatching their eggs in dirt. How do the young birds get out, and do their parents take care of them?
3. How do you make a sugar mixture to attract night flying insects?

Answers in Tomorrow's Nature Notes.

Answers To Previous Questions.

1. Do snakes taste their food? It is hard to say. They evidently have some sense that makes them prefer certain foods and refuse others. On the other hand, occasionally zoo specimens of pythons, for instance, have done strange tricks in swallowing articles not edible at all, apparently acting automatically when a foreign substance got into the mouth. A python that came in contact with a bamboo cane used to poke a dead rat into the snake's cage, seemed to smell the prey on the stick, and swallowed the stick; but afterward disgorged it.

2. What is the longest time any wild animal can live? Nobody really knows. Elephants are credited with living "a century or more"; crows and ravens are vaguely called long-lived; the giant tortoises of the Galapagos Islands of the Pacific are believed to live a hundred years.

3. Do thrushes get any special nuptial plumage? Not if you mean a conspicuous change such as is made by goldfinches, bobolinks, and scarlet tanagers, for instance. Thrushes make only one molt per year, in spring, and the coat at that time gets what brightness is due to new feathers. Robins, which are thrushes, show very gay breasts at the mating time, and bluebirds are at their bluest.

OUR DAILY PATTERN.

A Charming Afternoon Dress.

4342-4379. White and black tulle is here combined with black gorette. This model shows the new hip band blouse, and fan plait pockets. It supplies a style that is very becoming to stout figures, and one that may be developed in silk, cloth or wash materials. In plaid and plain ratine combined, it will be very smart.

The blouse pattern 4342, is cut in 7 sizes: 34, 36, 38, 40, 42, 44 and 46 inches bust measure. The skirt in 7 sizes: 25, 27, 29, 31, 33, 35 and 37 inches waist measure. The width at the foot with plait extended is 2½ yards. To make the dress as illustrated will require 3½ yards of figured material, and 1½ yard of plain material 40 inches wide. To make of one material will require 5½ yards of 40 inch material.

This illustration calls for TWO separate patterns, which will be mailed to any address on receipt of 12c FOR EACH pattern in silver or stamps by the Freeman Pattern Department, Rondout, N. Y. Be sure to state the size wanted.

Catalogue Notice.

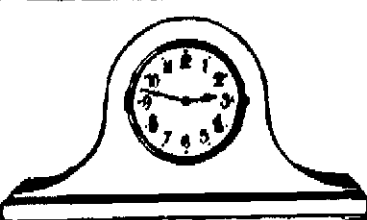

Sent 15c in coin or stamps for our up-to-date spring and summer catalogue, containing 550 designs of Ladies and Misses' and Children's Patterns, a concise and comprehensive article on dressmaking, also some points for the needle (illustrated) and 50 of the various, simple stitches, all valuable hints to the home dressmaker.

TWENTY AND TEN YEARS AGO.

August 16, 1903—Slight fire in residence of Luke Noone on Pearl street.

William Heintze died at South Rondout.

August 16, 1913—Common council decided to pave McEntee and Ferry streets with shale brick. Old D. & H. office on the Company hill in rear of Abel street turned into temporary boarding house for laborers on U. & D. Railroad. Emil Pross of Hunter street killed by locomotive at Peekskill.

SETH THOMAS CLOCKS

The model shown above is an 8-day mahogany finish clock, striking the hours and half hours, and is priced at \$20.00.

We have other Seth Thomas clocks at \$11.00 and up.

Come in and see them.

RESOLUTIONS SENT TO MRS. HARDING

On Monday evening at the unofficial Republican city convention held at the court house a committee was appointed to draft resolutions on the death of President Harding. The following is a copy of the preamble and resolutions which the committee has drawn and filed with John W. Eckert, secretary of the convention:

Whereas, Almighty God, in His infinite wisdom deemed it expedient to call unto Himself our late President, the universally beloved Warren G. Harding, and

Whereas, Warren G. Harding, during his incumbency of office as Chief Executive of the United States, rendered a service of inestimable worth, not only to our nation, but to all mankind as well, and, by his kindly and sympathetic nature and unbounded love for his fellowmen which so prominently characterized his public and private life, he won for himself such a large place in the hearts of his people, and

Resolved, that these resolutions be adopted out of respect for and in memory of our beloved president and that the same be spread in full upon the minutes of this convention; published in the daily papers of the city of Kingston, New York, and that a copy thereof be forwarded to Mrs. Warren G. Harding.

FLOYD W. POWELL,
S. D. GIBSON,
ALBERT VOGEL,
Committee.

GRAHAMSVILLE.

Grahamsville, Aug. 15.—Mr. and Mrs. William Ryan of Eureka, visited at their daughter's Mrs. Mahlon Donovan, Sunday.

Frank Van Wagner of Sugar Loaf, has ordered a new Ford. Elvin Moore of Eureka, doesn't improve very fast. People here hope he will be able to continue working soon.

George Dierfelter has his barn nearly completed. Stanley Allison is assisting Avery Osterhout in haying.

The M. E. Church fair held at the Odd Fellows Hall Saturday afternoon and evening was a success.

P. D. Moore is employed by Mrs. Anna Smith.

There was a demonstrating meeting on Wear-Ever aluminum held at the home of Mrs. Noland G. Barkley Monday afternoon.

James H. Ackertley is in Kingston, under the doctor's care. People here hope to see him home soon.

Lewis Simpson of Liberty was in town Sunday and Monday. He is driving a Ford.

Mr. and Mrs. Lanier and two children of Middletown, are spending a few days with Mary B. Osterhout on Rocky Hill.

While hunting woodchucks Saturday Nelson Donovan mistook C. C. Smith's head peeking over a rock, for a woodchuck, and fired two shots with a rifle, one bullet going through Mr. Smith's cap, and glazing his head. It was a lucky go for Mr. Smith, for he might have been instantly killed.

Lewis Simpson's Ford is certainly a hill climber. It is the only car that has climbed Rocky Hill road this year.

SHADY.

Shady, Aug. 16.—The King's Daughters Society will hold its annual fair and festival at the Shady Hall Tuesday evening, August 21. There will be fancy articles, also a number of patchwork quilts for sale, also attractions for the children. The chicken supper will be served at 5 o'clock, standard time, at the usual price. There will also be refreshments, including home made candy. Everyone is cordially invited.

To Polish Silver.

If a quantity of silver is to be cleaned try this method: Mix sweet oil and whiting to a smooth, creamy paste. Apply with a flannel cloth. Allow it to stand until dry. Polish first with cotton flannel, then with chamois. This method will not eat or injure the silver plating.

ELEVATOR SERVICE.

MISS L. SCHOONMAKER, Mgr.

PLUTARCH.

Plutarch, Aug. 16.—Mr. and Mrs. William Van Vleet entertained a number of city guests over the week end.

William Robinson, Mrs. Esther Yost and daughter, Mary, and Mrs. Ralph Gardner of New Paltz were callers in town on Saturday last.

A week ago last Saturday and Sunday Mr. and Mrs. Horace Elliott entertained about 30 friends from New York, New Jersey, Bloomington, Llord, Stissings and Clintondale.

Mrs. Clifford McCormick and two children of Pine Plains spent last week with friends and relatives at Clintondale, New Paltz and Plutarch.

William Schoonmaker of Poughkeepsie spent the week end with his parents.

Miss Josephine Ernst of South street and some friends called on Mr. and Mrs. Peter Michel on Monday.

The Misses Mildred O'Neill and Anna Bedford of Poughkeepsie are spending the week with their aunt, Mrs. Henry McCormick.

Harry Albertson and family were recent visitors with his mother, Mrs. Schneibaker has a few summer boarders.

Mr. and Mrs. Henry McCormick entertained the following guests on Sunday: Mr. and Mrs. Clifford McCormick, and two children of Pine Plains, Mrs. Morris Bedford and daughter, Anna, Mrs. Fred Doinker and Mildred O'Neill of Poughkeepsie and Mr. and Mrs. Leslie McCormick, while

swimming in the hammock with two other girls, fell out and broke the bones that join the shoulder blade with the collarbone. Dr. Coddington

reduced the fracture but it is quite painful for the little one. She is three years old.

ULSTER PARK.

Ulster Park, Aug. 16.—Mr. and Mrs. L. Herring and children spent Sunday with Mr. and Mrs. Cross at La Grangeville.

Mr. and Mrs. Mark Pennington with friends from Kingston, motored to Clintondale Thursday evening and attended the clambake.

Mrs. Arthur Slater has returned to her home here after spending the week end with her parents in Union Center.

The Ladies' Aid will meet Friday afternoon at 2 o'clock, standard time, at the home of Mrs. John H. Van Vleet.

Mr. and Mrs. E. T. Doyle and daughters were Sunday guests of Mr. and Mrs. LeGrand Doyle in Port

Ewen.

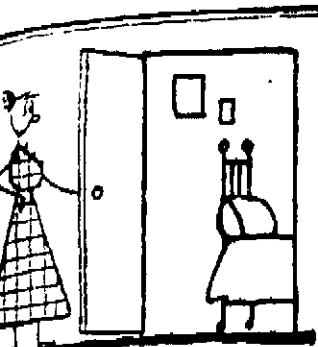

Mrs. Richard J. Gardner is spending two weeks at the Hottel Farm House, Aden, Sullivan county. The Misses Anna and August Gramsdorf have returned to their home in Albany after spending several weeks with Mr. and Mrs. J. H. Van Vleet.

C. J. Kammerer of New York is spending a week with his family.

Mrs. J. D. Churchwell, Mrs. J. and Mrs. Edwin Redford of Lockport recently spent several days with Mrs. Redford's mother, Mrs. George M. Kennock.

Looking into the Future.

The next generation will be that of the eminent village. The son of the farmer will no longer be dandified and destroyed by the fires of the metropolis. He will travel, but only for what he can bring back.—Vachel Lindsay.

PUT BONUS MONEY TO WORK

Iowa Veterans Do Not Rocklessly
Squander Allowance, as Had
Been Predicted.

Iowa's veterans who received the
state bonus are, contrary to expecta-
tion of some persons, placing the
money in savings accounts, using it
for the payment of debts and for the
extension of business. It had been pre-
dicted by a certain element un-
favorable to payment of such compensa-
tion that the money would be squandered
in reckless fashion.

Newspaper reports from all sections
of the state tell of the receipt of the
warrants by the former soldiers, and
what they expected to do with the money.

Iowa business houses have conduct-
ed wide advertising campaigns, sug-
gesting to the former soldiers uses that
might be made of the compensation
money. According to word from vari-
ous parts of the state, the savings
banks profited most from this cam-
paign.

Earl Brownlie, an American Legion
member of Davenport, Ia., who received
the first warrant, put it in a savings
bank to draw interest. Harlem Wyatt
of Des Moines, first to receive a check
in that city, told reporters that his
check was going to make the last pay-
ment on a little home. Another vet-
eran said that his plumber was wait-
ing in his business place for the check
when it came by post. Still another
"vet," appreciative of how he obtained
the money, said to reporters: "Five dol-
lars of my check goes to join the
American Legion and the rest to the bank."

Interesting facts in regard to the
payment of compensation in the state
were developed. More than 150 ap-
plications in the state were not signed by
the soldiers because they were unable
to write. Instead, the finger-print
method was used. When the warrants
were cashed the finger-prints were on
the backs of the checks. Two hundred
and fifty nurses will receive checks for
service in the World war.

A tendency on the part of Iowa vet-
erans to take advantage of the insur-
ance offered by the government is
noted by American Legion officials. A
survey of records of one post showed
about 50 per cent of the men receiving
compensation reinstated their govern-
ment insurance. Nearly \$150,000 in
policies was reinstated in one day, ac-
cording to officials of this post.

The Iowa law allows 50 cents per
day, with a maximum of \$350. All
claims of conscientious objectors have
been set aside until after all other men
have received their pay, when their
claims will be considered.

PROUD OF LEGION'S EMBLEM

Affiliated Ex-Servicemen Tell of Com-
radeship Displayed by Indiana
World Warriors.

The spirit of comradeship among for-
mer soldiers of the United States is
deepened, rather than diminished by
time, according to evidences of friend-
ly aid and help for veterans tempo-
rarily in need. This is particularly true
among organizations composed of
World war fighters, such as the Ameri-
can Legion.

Many striking examples of this com-
radeship come to the attention of na-
tional officers of the organization. A
splendid example was noted in a recent
letter to Legion officials concerning
friendly acts of an Indiana post toward
a sick comrade.

Written by H. L. Rogers, a veteran
of Battery E, Fifth field artillery, the
letter tells how he was taken sick and
passed through Lebanon, Ind., with
his wife. After reaching a hotel there
Rogers was told that he was threat-
ened with pneumonia, and his limited
resources were a source of worry.

"That afternoon," Rogers' letter
says, "the adjutant of the local post of
the American Legion came to the hotel
and made me feel I was among friends,
promising that my comfort would be
looked out for. The next morning I
awoke to see a bouquet of carnations
in my room. In the afternoon the post
commander came to see me, and in him
I met another fine fellow."

"I was sick for a week. Although
food wasn't much to left me broke, and
when the finance officer made me ad-
mit it he brought a \$10 bill for meals.
When I was strong enough to walk
about I decided to go to Chicago. The
American Legion gave me car fare, the
adjutant guaranteed my hotel bill and
a member of the post took us to the
train in his car."

"What do you think of a bunch of
fellows like that? Do you think they
would be just as regular sports if they
weren't Legion men? I confess I don't
know, but I think these buddies have
caught the one big idea of the founders
of the American Legion."

"In conclusion, let me say that I
have learned what the emblem of the
Legion stands for, that I take increased
pride in being permitted to wear it,
and that, as time goes on, I hope my
gratitude never lessens to the 'greatest
friend of the ex-buddy.'"

ROOSEVELT LETTER TO POSTS

Facsimile of Former President's Per-
sonal Message to Men in Trenches
Is Sent Out.

A copy of the only personal message
ever prepared by former President
Theodore Roosevelt for American sol-
diers in France, written on the day he
was apprised of the death of his son,
Quentin, has been sent to every post of
the American Legion, in the form of a
specially prepared facsimile of the
original message. This letter was pre-
pared for the soldiers of America and
was to be conveyed to them by Cass
Connaway of Buffalo, N. Y., who was
unable to deliver the words of Roose-
velt because of war duties.

Through the 11,000 posts of the
American Legion Mr. Connaway has
been able to complete distribution of
the message, and it will be framed in
Legion homes, presented to libraries
and museums, that all Americans may
read of the feelings of a fighter to the
fighting men of America.

Connaway was an attorney in Indian-
apolis before the war. His two sons
enlisted, and his wife took up Red
Cross work. When he found he was
the only one of the family not in serv-
ice he closed his office and volunteered
as a "Y" hut secretary, unable to enter
the army on account of his age.

Before he was ordered to France,
Connaway conceived the idea of carry-
ing a message to the Monster boys at
the front, telling them of how they
would be welcomed on their return to
the United States. Gov. James P.
Goodrich of Indiana prepared a splen-
did message, as did Booth Tarkington,
Meridith Nicholson, George Ade and
other well-known Indianaans. Then
Connaway enlarged on his original idea
and wrote to the governors of every
state for similar words to the men of
their commonwealths in the trenches of
France. All responded, and to these
were added a tribute, penned in long-
hand, by Cardinal Gibbons.

On July 15, 1918, Mr. Connaway sub-
mitted his plan to former President
Roosevelt. The day following, Quentin,

CASS CONNAWAY

his son, was killed as he flew over the
German lines, word being received in
America July 17 of the death of the
young aviator.

Connaway sailed for France and
shortly after landing was assigned to
duties with the legal division of the Y.
M. C. A. He was unable to send the
message direct to the men at the front,
but succeeded in having it printed in
the Paris edition of the London Daily
Times, though few of the fighters were
privileged to see it. Continued duties
with the "Y" as chief of the claims di-
vision, judge advocate and chief of the
legal division held up delivery of the
message. Connaway then returned to
the United States and was separated
from the service to become managing
director of the Buffalo real estate board.

Still feeling his obligation for deliv-
ery of the words from Mr. Roosevelt,
Connaway sought permission from
Theodore Roosevelt, Jr., now assistant
secretary of the navy, for authority to
issue the letter. Further permission
was obtained from the Roosevelt Mem-
orial association, which is gathering
mementoes for presentation at Roose-
velt house in New York city, the birth-
place of the president, and where the
original of the message will be placed.

Identical copies of the statement to
the troops were prepared. Then the
American Legion was appealed to as
being the best means for distribution
of the message and it went forward
through the various posts of the or-
ganization.

The message follows:
"To the Soldiers of the American
Expeditionary Forces Overseas:
"I send my heartfelt greetings to
you men at the front. You have
made all of us who stay behind lift
our heads high with pride by what
you are doing. It is you men,
and only you men, who are doing
one vital work for the American
people today. All good Americans
at this time owe homage to the
fighting men at the fighting front.
What you are doing is vital for the
honor and the interest, for the fu-
ture welfare, and for the very ex-
istence, of our republic; and you
are also battling for the liberty of
every well-behaved civilized na-
tion, big or little."

"I congratulate you on the great
good fortune that is yours in that
you now have the chance to en-
dure hardship and peril for a great
ideal and to render to our country
the greatest of all service. I would
give anything to be over with you.
"Faithfully yours,
"THEODORE ROOSEVELT."

Story of Cremation.

Before the Christian era cremation
was prevalent among nearly all na-
tions. Later, burial in the ground be-
came common. Of late years sanita-
tion is responsible for the revival of
cremation, which is gaining supporters.

DAIRY FACTS

WAGE WAR ON TUBERCULOSIS

Besides Organized Forces There Are
Thousands of Accredited Veteri-
narians Helping.

(Prepared by the United States Department
of Agriculture.)

Tuberculosis of live stock is being at-
tacked on all sides. In addition to the
large force of federal, state and county
veterinarians engaged in the nation-
wide campaign for eradicating this dis-
ease, there are thousands of accredited
veterinarians assisting with the work.
Records of the bureau of animal indus-
try, United States Department of Agri-
culture, show that on March 1, 1923,
there were 5,120 accredited veterinari-
ans in the United States. As accred-
ited herds are established the various
states turn them over to accredited vet-
erinarians, who test them annually at
the expense of the owner. This per-
mits county, state and federal vet-
erinarians to devote all their time to
herds that have not been accredited.

The federal government keeps in
close touch with the accredited veteri-
narians and furnishes them every few
months with information regarding the
disease and any unusual conditions
that may be encountered in the herds
under supervision.

The tuberculosis-free accredited herd
list is increasing very rapidly. The re-
port of the bureau of animal industry
just published shows that on March 1,
1923, there were 24,132 fully accredited
herds, 200,034 once-tested free herds,
and 332,587 herds under supervision.

MUDDY BARN LOT IS COSTLY

Additional Work Heaped on Dairyman
Every Way He Turns—Clean
Stable Pays Best.

A poorly drained barnyard costs the
dairyman more money than he imag-
ines. In some cases no doubt it costs
him more than the saving of the neces-
sary tile through which to keep it dry.
It means additional work for him
pretty nearly every way he turns—
dirty cows, dirty stables and an extra
physical effort on his own part in the
matter of going about his chores with
mud-caked boots. If he sells his milk
locally from house to house, he prob-
ably loses many a customer who as-
sociates thoughts of the general appear-
ance of the barn and its surroundings
with the milk which is being delivered
to his home. Clean environment in the
case of a dairy barn offers a telling
argument, in an advertising way, for
the milk produced amid these sur-
roundings.

COW TESTING IS IMPORTANT

Record Showing High Production of
Animal Greatly Increases Price
of Bull Calf.

A farmer sold a male calf for \$35.
Later its dam was tested for advanced
registry. When the yearly record was
completed it was found that the cow
produced over 22,000 pounds of milk
and 651 pounds of butter. Her next
bull calf was sold for \$300. This indi-
cates in a concrete way something of
the value of testing dairy cows.

PRODUCTION OF COWS.

Average production of dairy cows in
the United States is 3,412 pounds of
milk per cow per year. In Holland it
is 7,585 pounds; Switzerland, 6,550
pounds, and Denmark, 5,666 pounds.

DAIRY NOTES

Nobody cries when a scrub bull dies.

Don't keep cows. Make cows keep
you.

Good cream is clean cream, kept
cool.

Tuberculosis is a community prob-
lem.

Fall calving usually gives best
results.

The dairy cow, like a human being,
enjoys sunshine.

The most successful dairymen raise
most of their cows.

Milk from infected cows or from a
cremery should be pasteurized before
it is fed.

Milk substitutes are not equal to
milk, but give fair results when used
with care.

Creameries prefer the rich cream, as
they can use it more easily and
efficiently.

All calves should be fed regularly;
very young calves should be fed three
times a day.

The dairymen who produces and
sells a low grade of cream is nipping
profits in the bud.

Young dairy stock should have all
the hay they will eat, and grain in
proportion to weight.

"Keep the milk cool and the uten-
sils clean." This applies as well in
winter as in summer.

Records in Thinnest.

Platinum wire has been drawn so
fine that 30,000 pieces side by side
would not cover more than an inch,
while 150 pieces bound together would
form a thread as thick as a filament of
raw silk.

—Reduced from \$3.98. In a great variety of shapes and materials for street or sports
wear.

WASTE IN TRIVIAL ITEMS • COSTS RAILROADS \$230,000,000
By S. W. Straus, President American Society for Thrift

"The large wastes are readily
discovered, but it is the small
ones that in the aggregate
amount to much more than a few
large ones and cause the most
concern."

Thus an executive of an im-
portant American
railway system
recently epitomized
the urgent need of
thrift practice
among railroad
employees. He es-
timated that the
waste in little
things on the rail-
road with which he
was connected
amounted to \$1-
600,000 annually.
This did not in-
clude any outstand-
ing instances of inefficiency.

For example, here is one sen-
tence that illustrates the point:
"We have millions of electric
lights in service all over the
system using thousands of watt-
hours of current. How often
do we see lights burning unneces-
sarily while the waste goes on?"

Some of the annual items of
needless waste pointed out by
him were as follows: coal,
\$1,000,000; supplies, \$200,000;
stationery, \$50,000; crockeries,
\$200,000; locomotive repairs,
\$500,000.

Analysis of his statement
reveals that about 7 per cent of
his company's operating ex-
penses last year represented
waste due to lack of thrift by
employees. Inasmuch as the
system with which he is con-
nected represents about 3 per
cent of the gross
railway mileage of
the United States,
and as conditions
on the road re-
ferred to were
probably a fair
average of condi-
tions on all lines, it
is safe to set down
the sum of \$230-
600,000 a year as
the direct result of
lack of thrift by
employees.

One of the great
economic problems of the present
day pertains to transportation.
In the item of needless expense
referred to herewith, the cure
can only come through the edu-
cation of the employees. No
other efficiency system can safe-
guard against the waste here
alluded to.

The business men of America
should learn that a very small
percentage of the amount of
money wasted by thoughtless em-
ployees would if spent in correct
thrift education, bring amazingly
beneficial results.

All Cooks Look Alike
to the hungry man, but what a sad disappointment
when the "kitchen queen" quits suddenly and the
table looks anything but satisfying to a zealous ap-
petite. When in doubt as to what to do, use The Free-
man's "Help-Wanted" Cent-a-Week Department.

Daddy's Evening Fairy Tale

MARY GRAHAM BONNER

PARTY FOOD

"Well," said Prince Ice Cream, "I'm all ready and patiently waiting."

"So am I," said the top Sandwich and all of the Sandwich Sisters said: "We are ready, too."

"There are more of the Sandwich family in the kitchen with a damp napkin covering their eyes from becoming dried up," said the top Sandwich.

"I'm all ready," said the Lemonade.

"We're all ready," said the Little Cakes, "we are quite ready."

"I'm all ready," said the Creamed Chicken.

"So are we," said the Stewed Potatoes. They were very proud of themselves as they had been stewed in very rich milk and a little cream had been added, too.

"We're all ready," said the members of the Candy family.

"What a wonderful party it will be," said Prince Ice Cream.

"Of course," Prince Ice Cream added, "I make a party a real party. It is not because I'm conceited that I say that. It is a fact. I'm just naturally a party success."

"There are some who do well when all by themselves. They're shy, though, when they're in public. But not Prince Ice Cream."

"Prince Ice Cream is splendidly, deliciously at ease at a party."

"Of course all the rest of you help a lot."

"Now you, Lemonade, will be so nice during the afternoon, before the supper is served."

"And the supper will be a wonderful one. Of course, as I said, I make a party a real party but all of you will make this party a wonderful and magnificent one."

"Everyone will exclaim when they see what a gorgeous supper is to be given."

"Dear me, but they will be delighted at the thought of Creamed Chicken and Creamed Potatoes."

"It will be a banquet."

"Oh, it is splendid to belong to the Party Food Group. I'm so glad I had the good luck to belong to the Ice Cream family."

"I would have hated to belong to the Fried Parsnip family, for example."

"Nor would I have cared to belong to the Onion family."

"Onions are very popular with some, though others do not like them."

"And I am glad I do not belong to the Cucumber family."

"I am also delighted that I do not belong to the Cream of Wheat family."

"Cream of Wheat sounds all right and it is all right, but it, too, is a breakfast food whereas I am a party food."

"Then, too, I am often given to people when they are getting well and how I do make people rejoice when they see me."

"Of course when I say that I do this I mean that the Ice Cream family does this."

"Yes, all understand, don't you?"

"Yes, we all understand," said the rest of the Party Food.

And then the children arrived at the party. Such lots of them came and they played games and they won prizes and they ran races and they drank lemonade, which cooled them off, for it made them very warm to play some games. Then supper was announced. How delighted everyone was!

"We're all going fast," said the Creamed Potatoes.

"We're all going, too," said the Sandwich Sisters, "and the members of our family who have been kept in the kitchen as a reserve supply are being brought in, too."

Then the cakes and the candy began to go and so did the Ice Cream and as the last of the Ice Cream was served Prince Ice Cream melted a little bit more with happiness and with delight.

"Oh, what fun it is to be Party Food and to be so thoroughly enjoyed," were Prince Ice Cream's last words.

And the children all said when they were leaving what a good time they had had and they also said: "The food was so delicious too. Oh, Party Food is like no other food in the world. It's the most wonderful of all!"

They Drank Lemonade.

GAS BUGGIES—Transcontinental Tour—"It's Enough to Discourage Any Woman."

The KITCHEN CABINET

(© 1923, Western Newspaper Union)

To make some little work of God's a little fruitfulness, better: to make some human hearts a little kinder, more cheerful, happier, more blessed, less accused—it is to work for God.—Carlyle.

SALADS AND OTHER SUMMERY DISHES

The refreshing tomato makes a most acceptable salad, and its coloring adds much to the attractiveness of any salad.

Peel and slice rather thick slices from firm, ripe tomatoes. Arrange on head lettuce and cover each slice with chopped pineapple and celery, marinated with French dressing. Just before serving heap a spoonful of thick mayonnaise on the lettuce.

Another delicious tomato salad is one prepared by using small-sized tomato cups; the removed pulp may be mixed with the filling or reserved for soup or other dishes. Chop one small cucumber, add a tablespoonful of chopped onion and a little chopped celery. Mix with a highly seasoned dressing of oil or a boiled dressing, fill the cups, garnish with a sprig of parsley, arrange on a bed of lettuce or watercress or a nasturtium leaf and serve.

Sherry's Coffee Sponge.—Soak two tablespoonfuls of granulated gelatin in one-half cupful of cream or evaporated milk. Beat two egg yolks slightly and add one-fourth of a teaspoonful of salt, one-half cupful of sugar and two cupfuls of strong coffee. Place in a double boiler and cook until thickened like custard. Then add the softened gelatin and stir until it is well dissolved, remove from the heat, cool until the mixture begins to thicken, then add vanilla to flavor and fold in two stiffly beaten whites of eggs. Pour into a wet mold and allow to stand until firm. Serve with plain or whipped cream.

Don't fail to put up some fresh raspberry jam or any small fruit easily crushed. Be sure that each berry is well crushed, then add equal parts of sugar and mix well until the sugar is dissolved, then in cold cans that have been sterilized, covered and chilled in the ice chest. Seal and place in the ice chest or on the cement or stone-bottom cellar. They will keep indefinitely if properly canned.

All Parts of Banana Used.

In tropical countries all parts of the banana plant are used. The leaves protect from the rain, serve as tablecloths, as wrappings for food during the process of cooking, and for various kinds of packing. When cut into strips and plaited, they make serviceable mats and bags. Cigarette papers are manufactured from the pulp of some species. All parts of the plant contain a watery juice which blackens on exposure to the air, and forms an indelible stain. Valuable fibers, suitable for the manufacture of ropes and clothing, are obtained from the leaf stalks of many species, especially the one known scientifically as musa textilis, which supplies the abaca or Manila hemp of commerce. This species is a native of Philippine islands, where it is extensively cultivated.

Not Clear on That.

The professor was either unusually dry in his lecture that morning, or the class was inordinately dull. The yawning was done openly, so that even the professor took a hint and cut the lecture a bit short of the hour. "I will stop here," he announced, "as our time is nearly gone. Perhaps, though, I have not quite made the proposition clear, and you are now free to ask any questions you may care to." One student sat up from his nap and immediately took advantage of the offer. "What time is it?" he asked.—Kansas City Star.

Carries Its Own Repair Kit.

The human machine, unlike the man-made machine, contains within itself the materials and apparatus for its own upkeep. Our bodies are constantly being repaired, and the wastage made good, by a number of intricate processes of sifting, filtering, and so forth. If these processes could always be carried out under ideal conditions very many years would be added to man's span of life. Absolutely ideal conditions are, however, impossible of attainment, though it is a comparatively easy matter for all of us to approach them more or less closely.

HIGHLAND.

Highland, Aug. 15.—Dewitt Rose of Brooklyn was a week end guest of Mr. and Mrs. Daniel Kuriz.

J. W. Foster was a recent business visitor in New York city.

I. C. Dayton is spending two weeks in New York city with relatives.

Mr. and Mrs. Ezra Egan and family of Lloyd will in the spring move in their newly acquired home of this place on Grand street. They purchased it of Captain H. C. Dayton.

Funeral services for the late Mrs. Henry Green of Newburgh were held Sunday, August 12th at M. E. church here. The Rev. P. A. Coons officiated. The service was largely attended.

Mr. Robinson is busy preparing several rooms in the M. E. parsonage.

Mrs. Arthur Schamerhorn and daughter are at present visiting Mr. and Mrs. W. E. Wilcox.

The Rev. and Mrs. William Wilcox of Baltimore, Md., are spending their vacation here with relatives.

Chester Atkins has returned after a few days spent in New York city.

Mr. and Mrs. G. H. Brown are now enjoying the pleasures and rest at Ocean Grove.

Stephen Ward of Springfield, Mass., is in this place. He has two weeks' vacation and is here with Mrs. Emily Brandage, his mother. He will also visit relatives in Albany before leaving for his home.

The Woman's Republican Club held a luncheon at Hotel Staynesant August 8th. They held a meeting at the court house and named it the Woman's Harding Republican Club of Ulster county. Look out for wonderful results. Mrs. Sarah Pratt was placed on the nomination committee.

Last week Mrs. Lorin Schantz and daughter Miss Kathryn were in New York city on business.

Some of Highland sports were in attendance at Goshen horse races.

Dr. and Mrs. E. Welker of New York city had recent guests from the city at their summer home here on Grand street and all are having fine motor trips and enjoying clam bakes, etc.

Mr. and Mrs. George Rowley of Maple avenue entertained relatives week-end from Marlborough.

Andries Dubois and family are back from their vacation spent at Claryville.

Frank Simpson is one of our up-to-date fellows. He has painters busy now improving the exterior of his home. Frank believes in doing things up to the minute.

Mr. and Mrs. George Gunsalus are now entertaining relatives from Waterbury, Conn.

We hear wedding bells will soon peal forth in Vineyard avenue.

Fair to be held by Ladies' Aid of Presbyterian Church will come off September 14th, so just put it down in your date book that you will have a reminder.

Mr. and Mrs. George Evert had had as their recent guest Miss Flynn of New York city.

Mr. and Mrs. A. D. Lent have been entertaining relatives from out of town.

The W. C. T. U. at their regular meeting Thursday elected their officers for the year and also made arrangements for county convention which will be held in the Presbyterian Church in September.

Mr. and Mrs. Hugo Stiller of Maple avenue had as their guests Sunday Mr. and Mrs. H. Plack of Poughkeepsie.

Mr. and Mrs. Alfred Hopper of Grand street have as their guest at present Mrs. Harry Schumaker, who resides at Harmon.

Miss Ida Van Nostrand is at present enjoying herself in the mountains for a week with the Darrow family.

Miss Ethel Atkins has spent over a week in Brooklyn with relatives and had a good time.

Mr. and Mrs. Frank Van Wert of Maple avenue had as their guest Sunday Irving Van Wert and son of Poughkeepsie.

Mr. and Mrs. Elton Tompkins and son Clarence were in Albany last Sunday.

Mr. and Mrs. F. L. Palmer were recent visitors in Sullivan county.

Mrs. Mary Mallock of Grand street has returned from a visit with relatives in New Rochelle.

Frank Terpening of Ulster Park was a recent caller on relatives in this place.

Howard Wilcox and son Gordon were in the metropolis last week on business.

Dr. and Mrs. LaMoree entertained week-end guests from Washington, D. C.

Mr. and Mrs. George Hildebrandt have returned home after spending a short time in Rochester.

Roy Benson who fell from a ladder a few days ago is still in bed. His friends hope for his speedy recovery.

P. M. Terpening who is employed on the ferryboat is boarding at the home of Mr. and Mrs. Myron Terpening.

Mrs. Henry Hovet and Mrs. J. P. Leo are entertaining Mr. and Mrs. Christensen of New Jersey.

This new kind of soap

-banishes forever all the drudgery of rubbing

In the big lasting Rinso suds even ground-in dirt is gently loosened and floated off. Only the very dirtiest places need the lightest rubbing. Use a bit of dry Rinso for this and watch these spots quickly disappear.

Of course you just know that Rinso is wonderful because it is made by the makers of Lux. For the week-in, week-out family wash Rinso is exactly as safe, easy and efficient as Lux is for silks, woolsens and all fine fabrics.

Rinso is the only soap you need for your Monday wash. It takes the place of bar soap—does the whole job. For soaking, for boiling, for washing machines—it is the ideal soap.

Buy Rinso at any grocery or department store. Two-sizes—regular and big new package. Levee Bros. Co., Cambridge, Mass.

MARKET NEWS IS SENT OVER U. S.

Whole Country Now Included in Federal Service.

BY LEASED WIRE AND RADIO

Extension of the market news service of the United States Department of Agriculture, involving the establishment of one of the largest commercial leased telegraph wire and radio telegraph systems in the world, has been announced by the Department of Agriculture. The main extension is from Kansas City to the Pacific coast, with new offices at Denver, Salt Lake City and Portland, Ore. In the Southeast a branch office is to be established at Atlanta, in addition to the flight stations already operating in that territory which cover the major producing district. Offices at several other Southern points are being considered.

Additional branch offices for reporting the markets on fruits and vegetables will be opened this month at Denver, Salt Lake City, Portland and Atlanta. Offices are now located at San Francisco and Los Angeles. A live stock and meats service will have additional branch offices at Denver, Salt Lake City, Portland and Atlanta. The leased wire system will run into San Francisco and the entire west coast will be effectively covered both by radio and wire telegraph from San Francisco. Final decision has not been reached as to whether radio telegraph or leased wire will be used to the Southern states.

Congress Votes Money.

Authority for extension of the department's service is contained in the appropriations voted by the last congress providing for an increase of about \$300,000 to carry on the work, making a total approximately of \$7,000,000. During the war the leased wire system covered over 18,000 miles and connected practically all the leading market centers of the country. The service was regarded as an important factor in bringing the war to a successful conclusion by making available at all times the fullest information on the food situation. Following the war the service was curtailed until it comprised only 2,600 miles of wire, and only a comparatively few of the large Eastern and Middle Western markets could be covered. Last September an additional circuit was started from Kansas City to Austin, Tex., with a drop at Fort Worth.

Under present extensions of the service the leased wire system will cover approximately 7,000 miles. The circuit will extend from Boston south to Washington, thence west to San Francisco or Los Angeles. En route it will connect New York, Philadelphia, Baltimore, Pittsburgh, Cincinnati, Chicago, Fond du Lac, Wis.; Minneapolis, St. Louis, Kansas City, St. Joseph, Omaha, Denver and Salt Lake City. A special line will run from Kansas City to Fort Worth and Austin, Tex. Contacts will also be made en route at various offices operated by state departments of agriculture. These will include Trenton, Lancaster, Harrisburg, Columbia, Waupaca, Wis.; Jefferson City, Mo.; Sacramento and Austin. The Southeastern circuit contemplates reaching Richmond, Raleigh, Clemson college and Jacksonville.

The leased wire circuits are in operation from 6 a. m. to 6 p. m. daily except Sundays, and through development of code systems are more intensively used than any other leased wire system in existence, in the opinion of department telegraphers.

Controlled From Washington.

All traffic is scheduled and controlled by the Washington office and is transmitted simultaneously to all the big market centers. During the night the Washington office receives hundreds of telegrams from railroads reporting the carload movement of perishable commodities over their respective divisions. These telegrams give the origin, destination, commodity and number of carloads in transit. The information is classified and tabulated and moved to all branch offices early the next morning to show graphically the total volume of perishable fruit and vegetable products moving to the various cities.

Following this information the estimated receipts at live stock markets are dispatched, followed by general reports on live stock, meats and other products, showing supply, demand, wholesale prices and conditions. Flashes on cattle, sheep and hogs are dispatched. Butter and egg quotations, and local quotations and information from the big markets on fruits and vegetables follow. During the day information on cold storage products, peanuts, honey, hay, grain, feed, butter, eggs, cheese, live stock, fruits and vegetables moves over the circuits.

At the close of the day market summaries on all commodities are dispatched for release to more than 2,000 newspapers throughout the country. Special reports are also prepared for radio telephone or telegraphic broadcasting stations and transmitted to the offices of distribution. The information received over the wires at the various branch offices is immediately communicated to producers and the trade by telephone, telegraph, radio and the press, so that almost at any moment farmers and the trade everywhere may have an accurate picture of the national agricultural market situation.

Consuming centers are also advised as to the supplies of various products.

NEW KIND OF BEAR IS DISCOVERED IN OREGON

Resembles Small Grizzly. United States Biological Expert Announces.

The discovery of a new species of bear was announced at a meeting of several hundred Department of Agriculture employees with Henry C. Wallace, secretary of agriculture, at Tacoma, Wash.

The new bruin has not been officially named, but he probably will be called the Lava bear, his known habitat being the lava beds of southwestern Oregon. The discovery was reported by Director Jewett of the United States biological survey. Mr. Jewett said that about a year ago a settler killed the first of these strange bears and brought the carcass to him. The animal had a shaggy coat very much like a grizzly bear and despite that it weighed only 40 pounds it was exceedingly ferocious.

Mr. Jewett determined that the animal was full grown and that its characteristics were distinctly different from those of any variety of bear known to him. He sent the carcass to C. Hart Merriam, former chief of the biological survey and now director of the Rockefeller institute. Mr. Merriam is the recognized world authority on bears.

Mr. Merriam confirmed the fact that the animal was different from any other known species but not much was made of the matter until two weeks ago when another animal of the same sort was killed by investigators of the biological survey. The experts' theory is that the Lava bear is a development from the grizzly in the district where it was found. Food is very scarce there and just as the huge Kodiak bear of Alaska is believed to be a grizzly developed to abnormal size by feeding on the salmon which abound in the rivers there it is thought the Lava bear may be a grizzly stunted through many generations of scant feeding.

Its characteristics, however, are so different from any known variety of bear that Doctor Merriam declares that it must certainly be classed as a new species.

WILL ADMINISTER BOX AMERICAN PEACE AWARD

Miss Esther Everett Lape, who has been appointed as chairman of the policy committee to administer the American Peace Award which Edward W. Bok of Philadelphia is offering as a prize of \$100,000 for the best plan for the United States to cooperate with other nations to make an end of all wars, Miss Lape has explained that Mr. Bok and the policy committee have no idea of promoting the cause of the League of Nations.

FEWER CRIMES IN ENGLAND

Marked Decrease Shown in Period from 1913 to 1921.

Less drunkenness, more burglars arrested, a big drop in minor cases, more suicides, 25 double tragedies, and British prisons not so full, are some of the outstanding features of the crime statistics for 1921, just made public.

During 1921, cases of drunkenness totaled 12,283, against 98,606 in 1920 and 204,028 in 1913. Offenses of violence declined to 966 in 1921 from 1,107 in the previous year.

Prison returns show the number of convicted prisoners received during 1921 totaled 46,571, against 159,283 in 1912.

Tramp Breaks Neck Trying to Escape. A tramp, who attempted to escape on the motorcycle of the policeman whom he had slain, crashed into a curbing at Freeport, Ill., and broke his neck.

Finds Gold Ring in Head of Lettuce. Minnie Yeager, of Columbia, Pa., found a gold wedding ring in the heart of a head lettuce she was washing to make salad.

Nothing Else but—

An apartment hotel on Woodward avenue advertises suites for high-class bachelors. An unmarried man of thirty-eight married when he read the sign, "What other kind of bachelor is there, I'd like to know!" he exclaimed. —Detroit News.

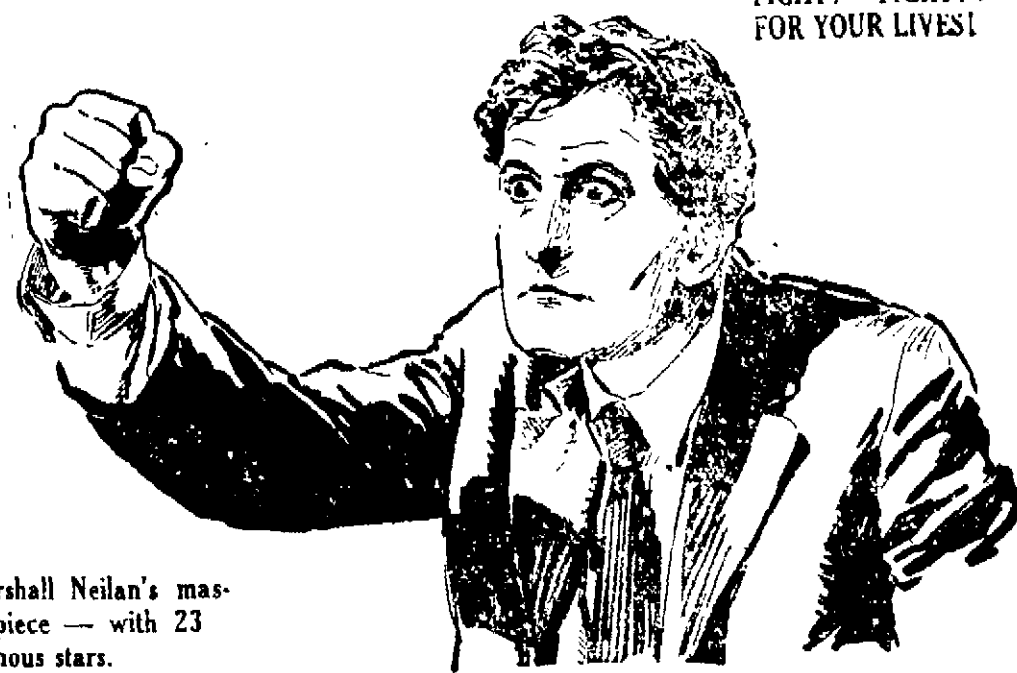

Women Denied Solace of Prayer.

In some parts of the world the women are not even allowed to pray. Certain Hindu congregations deny their women this privilege, and among the alms of Jain women — n pray only in very rare cases as the deputies of their husbands.

Friday - Saturday
FIGHT! FIGHT!
FOR YOUR LIVES!

Marshall Neilan's masterpiece — with 23 famous stars.

A thousand strong-limbed men stood ready to do the bidding of the great leader. Fate hovered like a cruel menace over the vast shipyards of the Keogh family. A colossal edifice of wealth built up over many hard years tottering on its foundations. But above the turmoil and unrest the daughter of the Keoghs, gentle, beautiful, superb fought courageously for her great inheritance. A picture that reaches into the soul of the masses and brings forth a vivid message of love and loyalty.

HIS FANGS DEADLY

"Diamond-Back" Always a Thing to Be Dreaded.

Pony, in All Its Finesse and Wisdom, Easy Victim of the Silent, Sudden Terror.

The following is taken from "The Diamond-Back," a snake story by Carlisle Graham Raht in Everybody's Magazine.

"On a jutting edge near the top of a high back wall a score of rattlesnakes sprawled, huge diamond-backs, rousing in the warmth to sluggish activity.

"The particular cause of the disturbance was an immense fellow whom the sunshine had tempted forth. He was a thing of beauty, if not a joy forever. The markings of the diamonds—black-lined, within this, dull gray merging into russet brown—glinted in the brilliant light as if his majesty had just come from the royal bath. He had crawled from a great cleft in the wall, and with the dignity befitting his six feet six was endeavoring to negotiate passage to the warmest spot on the ledge.

"He flowed forward in graceful undulations, his great blunted nose thrust a foot in the air and his head canted sidewise inquiringly. A sudden whirl brought him up with a lightning dart backward of head and neck. Danger! A fellow rattler had signaled. True, the alarmist, backed by two feet the stretch of his majesty, but the rattlesnake's bite is death to his own kind, and each one observes the rights of the other—especially when one has lived the span of fourteen rattles and a button! Wisdom had helped his majesty to reach great age. Cautionously he retraced his way, seeking other means to reach the enticing ledge.

"Before his majesty had proceeded far, a sound like marshaling thunder overhead shook the ledge.

"The diamond-back paused, with tongue flicking. Closer rolled the thunder, joined now by audible screams. Bowlders and pebbles rattled over the heights above, thundered in the midst of the half slumbering serpents and lashed them into fury as a remuda of horses, fresh from relieving their thirst, with heels flying, reared playfully snapping, shrilling their exuberance of spirit, crowded the leaders into the narrow trail leading down to the canyon's bottom. With clumsy haste the rattlers for the most part sought refuge in the cleft. But not so his majesty.

"As the lead horse, slipping, sliding, pushed forward and downward by his impatient followers, passed the ledge, the loosened pebbles sprayed the rattler with stinging pellets. His majesty whirled a warning and coiled, while the leader, snorting with fear, sprang forward out of danger. The second horse, hearing the song of the cascades, likewise leaped safely past the ledge. Then his majesty struck half his length. As his great mouth flew open, the jawbones, working as levers, unfurled the inch-long fangs.

"A big black girdling was the third in line, and as the fangs of the diamond-back sank into the meaty part of his flank, he squealed in terror. The remainder of the band hesitated on the rim, then heard the terrifying rattle and fled."

Why Not Thermos Houses?

A thermos bottle has become an article of common use, though only invented a few years ago by Professor Delcar. It is just a double walled flask with the air drawn out between the walls. This vacuum prevents the passage of heat or cold waves. If it were possible to make the vacuum perfect, no heat would pass through. Why should we not have vacuum houses; two concrete walls and a vacuum between them? A little heat in winter would be all they would need. Unfortunately the walls would have to be bridge work to stand the pressure weight of the air outside 14.7 pounds per square inch, which would prevent the vacuum from being quite perfect.

His Objection.

"What a glorious region!" rhapsodically ejaculated a tourist. "How magnificent the hills, how wonderful the scenery. Do you realize that within a few years this will be the most popular recreational region in all the West? That thousands upon thousands of people will visit you, and—"

"That's all right, peddler," interrupted Gap Johnson of Rumpus Ridge. "I'm going to move before that time. I'm kept awake so much now answering the questions of newcomers and thinking up funny character stories to tell 'em that when they get to coming by thousands I'm sure to get to coming by a-plenty—feller to get to sleep in the daytime a-tall?"—Kansas City Star.

Cost of Accidents.

Industrial accidents have cost over \$125,000,000 in compensation during the past nine years in New York state. This amount, made public by the state industrial commissioner, has been paid to injured workmen, and to dependents of workers killed in industrial accidents since workmen's compensation law has been in operation in New York state. The money was distributed to more than 400,000 claimants. Industrial accidents in the state during the nine-year period, the report added, numbered more than 2,300,000, an average of about 250,000 a year. The number of deaths reported was 12,450, an average of 1,383 a year.

Croquet Once "Pall Mall."

Croquet is the descendant of the old game of "Pall Mall," popular in England up to 1600, after which time it died completely out of knowledge, except in a remote corner of Ireland, from whence it emerged as croquet in the middle of the Nineteenth century.

TWO SHOT IN RIOT OVER KLAN

Following Meeting In Ohio Mob of 1,000 and Klansmen Numbering 100 Engaged in Fight—Three Autos Wrecked.

St. Louis, Mo., Aug. 16.—A sweeping investigation into responsibility for the riot late last night, in which two men were shot, one fatally, a dozen klansmen injured and about forty members of a mob of 1,000 which engaged in a free for all battle with 100 klansmen suffered blackened eyes and cuts and bruises, was promised by county authorities today.

Three automobiles, in which 12 of the visiting members of the Ku Klux Klan from Weirton, W. Va., and East Liverpool, Ohio, had driven to the city, were wrecked.

Darwin L. Gibson, a Panhandle conductor, was shot through the head and probably fatally wounded. John De Santis, a spectator, was shot through the left eye.

The battle began when the Klan meeting broke up. When the visiting klansmen fled from the hall to enter their waiting machines, a spokesman for the mob halted the first man to enter his car, asking: "Did you serve in the world war?"

"I certainly did," the klansman replied. "Aren't you ashamed then to use our flag in this manner?" The spokesman queried, pointing to the Stars and Stripes draped over the front of the machine.

"No, indeed, I'm proud of it," was the answer. Hot words ensued and then a fist fight was begun. Twelve klansmen seated in the three leading machines suffered injuries inflicted by fists, sticks and stones. Their cars were wrecked. Police and sheriff's deputies, after more than three quarters of an hour quelled the fighting.

Before the meeting the visiting klansmen, numbering about 100, had paraded the downtown streets in twenty five automobiles. Their cars were decorated with electrically illuminated crosses and the Stars and Stripes and Klan insignia. The procession was headed by a band. While the meeting was in progress, a large crowd gathered.

In the melee which followed, flags were torn from the cars and the illuminated crosses on practically all the machines wrecked.

OFFICERS OF SAUGERTIES BOARD OF EDUCATION.

The board of education of Saugerties held a meeting for organization and also their regular monthly meeting Tuesday evening. Those present were Dr. Luther Emerick, R. B. Overbaugh, Mrs. George B. Snyder, Holley R. Cantine, J. W. Frankel and John C. Shultz. The officers elected unanimously were the following: Dr. Luther Emerick, president; R. B. Overbaugh, vice president; E. C. Lewis, treasurer; Ernest Hassinger, collector; Dr. Hugh S. Chidester, medical inspector; Miss Lillian B. Hagelweide, school nurse and attendance officer; Charles Clum, member library board.

FREE DE VALERA AFTER ELECTION

His Friends Threaten Reprisals. Mostly Peaceful — Patrick Rutledge "Deputy President of Irish Republic."

By Telegram to The Freeman. Dublin, Aug. 16.—One Irish Republican was killed and two Free Staters wounded in a clash at Dantry today.

The Free State government is taking precautions to prevent Republican uprisals, for the arrest of Eamonn De Valera in County Clare yesterday. It is likely De Valera will be interned until after the election on August 27.

Countess Markiewicz, one of the most active of the women Republicans, in a speech in Dublin, eulogized De Valera. The Free State police did not attempt to interfere with her.

The Irish press generally approves of De Valera's arrest and hope is expressed that it will not throw public sympathy towards the Sinn Fein.

Annie MacSwiney, sister of the late Lord Mayor of Cork, who died on hunger strike in an English prison, speaking at Mullingar, said: "We want an honorable peace without another shot. We will not have Ireland divided. We will not swear allegiance to the king. If anyone tries to make us do so war will come."

The Republicans have issued an order dated August 11 and signed by De Valera appointing Patrick Rutledge "deputy president of the Irish Republic." Rutledge is a candidate for the Dail in County Mayo.

Adherents of De Valera declare they will put up additional candidates in all constituencies as a result of the arrest of their chief.

In a statement, Rutledge said: "William T. Cosgrave, (president of the Dail) said the Free State did not refuse any person the right to be heard. The arrest of De Valera prevented him from addressing his constituents. This shows up the government's pretence at free speech."

It was reported that De Valera would be removed to an internment prison sometime today. He is expected to be released shortly after the general election.

An independent candidate for the Dail named O'Brien reported an attempt to assassinate him. He said shots were fired which narrowly missed him.

Secures Position.

Thomas Hernandez, an honor graduate of Spencer's Business School, Wall and John streets, has secured a permanent and desirable position as bookkeeper and clerical assistant with W. R. Grace & Co., 7 Hanover Square, New York city.

Windham Breaking Drought.

H. B. Thompson of Windham is installing a large Kingstonian power pump and a Hercules gasoline engine which was purchased from the Canfield Supply Co.

Church Council Meeting.

A special meeting of the church council of the Spring Street Lutheran Church will be held Friday evening at 8 o'clock.

HOMESPUN YARN.

A new edition of "The Culture of Garon Roses" has just been published by the State College at Ithaca. P 121 written on a postal card will bring you a copy.

Fruit should have a prominent place on the summer diet. If members of the family aren't fond of fruit, serve it to them in the form of lemonade or other fruit drinks.

A little cold cream and powder on the face and hands before a day spent out of doors may prevent painful sunburns. If one becomes sunburned, cold cream at night will ease some of the pain.

Aunt Ada's Axioms.—The child who has wholesome food, neat comfortable clothes and a smile and commendation for good work done will have no cause to reproach his parents in after years.

The home which fosters clean minds and kind hearts is God's temple; the spirit of the good home whether it be rich or poor, is one of the best things in the world.—Queen Mary of England.

Why try to put all of the flowers in the garden in one vase? Use discretion and do not crowd. Often one rose or one flower is more effective than a dozen. Give each individual plenty of room to show off, and beware of mixing colors.

TYPHOID CAUSES SUMMER BOARDERS TO LEAVE

A case of typhoid having developed among the boarders in one of the cottages attached to the Mt. Airy House at Saugerties caused the majority of boarders, about 30, to make a hasty exit Tuesday. The typhoid patient is under Dr. Luther Emerick's care, and Dr. James Krohn, health officer, has taken the necessary precautions to prevent its spread. A few of the remaining guests are also ill, but the nature of their ailment has not fully been determined.

SCOUT CAMP PROBABLE DURING CHRISTMAS VACATION.

The Boy Scout camp near Chichester ended officially July 31, but some of the boys stayed with Chief Nesslage a few days longer and the camp material was stored in the two cabins which Mr. Schwarzwaelder had permitted the Scouts to erect in his famous park. There were thirty-two boys in the camp and all were strong for coming back next year. There are also several requests that Mr. Nesslage conduct a winter camp at the same spot and it is probable that this will be done during the Christmas holidays.

Visits Senate House.

James A. Hamilton, secretary of state, was a visitor at the old Senate House, on Clinton avenue, Wednesday, and viewed everything in the building and was highly interested in the building and the historical articles.

Magnifying Glass Needed.

The "Mite" Bible, smallest Bible known, has a magnifying glass in the cover with which to read the printing.

COUNTY-WIDE SCOUT MEETING

To be Held at Saugerties Labor Day Backed by Saugerties Chamber of Commerce.

The Boy Scouts of Ulster county are to have a big celebration and field meet Labor Day and they are hoping for better weather than they encountered at the barbecue in Woodland Valley last spring, when rain marred what promised to be their most successful outing.

This time the Saugerties Chamber of Commerce is back of the meet, and the main events will be run off on the Saugerties baseball field. In the morning there will be a parade of all Scouts able to be there and then they will march to the field where a big feed will be in waiting, to be furnished by the Saugerties people free of charge. In the afternoon there will be a speech by some national officer of the Scout organization, stunts by Chief Manabozho and contests among the Scouts. These will include a Paul Revere relay race, horse and rider contest, antelope race, one-mile relay and 50-yard dash. These will be followed by an exhibition drill by Troop 3 of Saugerties and stunts by various troops from the county. The judges so far selected are H. A. Gordon, chief camp director of the New York City Boy Scout camps, Richard Overbaugh and Scout Executive Nesslage. Following the contests there will be more eats and dismissal.

Scouts should bring their own knives, forks, cups and spoons. All else will be furnished.

LAWN FESTIVAL OPENS AT ST. MARY'S TONIGHT.

Tonight at 7:30 o'clock the lawn festival at St. Mary's School lawn will be formally opened. The festival is being conducted by the women and men of St. Mary's parish and will be continued Friday and Saturday.

Electric lights have been strung around the grounds and with the many attractive booths promises to make a picturesque and lively scene. A large variety of articles will be on sale and auction. Refreshments will be on sale and luncheon will be served by the ladies of the parish.

IN THE AIR TONIGHT.

Radio Programs That Are Free As The Air That Carries Them.

Radio programs for tonight are: WEAF, New York City (492 Meters) 7:30—Recital by Arthur Billings Hunt.

7:45—Solos by Betsy Ayres. 8:00—Solos by Betsy Ayres. 8:30—The Cheerful Philosopher, Burr McIntosh.

9:10—Program by Gimbel Brothers New York store. Dance program by the Alpha Synchronators. WJZ, New York City (455 Meters).

7:30—"Evening Schools," by Morris E. Siegel, director of Evening Schools of the City of New York. 7:45—"The Waddington Cipher," a detective serial story.

8:00—Special evening radio organ recital. 8:45—"A review of the 'White Flag.'" 9:00—Concert by Anne Luckey.

9:25—"Your Debt to the Theater and How to Pay It," a few minutes with Channing Pollock. 10:05—Dance program by the Hotel Astor Roof orchestra. 10:55—Time signals and weather forecast.

KYW, Chicago (845 Meters). 7:00—Latest news of the day. 8:30—News, financial and final market and sport summary. 8:50—Children's bedtime story. 10:10—Musical program. 10:55—Naval Observatory time signals.

WGY, Schenectady (380 Meters). 8:35—Open air talk, "Plug Ball Casting," J. L. London. 8:40—Baseball scores. 8:45—Musical program.

KDKA, Pittsburgh (826 Meters). 7:00—Baseball scores and continuation of dinner concert. 7:30—Address by F. L. Bishop. 7:45—The children's period. 8:00—Baseball scores. 8:05—Address by Roy Schooley, road commissioner of Allegheny county.

8:20—Concert by the KDKA Brass Quartet. 9:45—Market reports. 10:00—Baseball scores. 10:55—Arlington time signals, weather forecast.

THE CLOVE. The Clove, Aug. 16.—Mr. and Mrs. Howard Connor spent the week end with Mr. and Mrs. John C. Yeaple.

The following motored to Perrie's Bridge for an outing Sunday: Mr. and Mrs. William Sheeley, Mr. and Mrs. Fred Sheeley and Mr. and Mrs. John K. DePuy and Miss Ida Sheeley.

George and Charles Mutschler, Jr., motored from Brooklyn and spent the week end with their parents. Mr. and Mrs. Charles Mutschler, at this place. Mrs. Mutschler returned to the city with them for a week's stay.

Mr. and Mrs. A. J. Sheeley of Lake Katrine spent Sunday with her parents here.

Mr. and Mrs. Sheridan Simpson and Edward Jones of Lake Mohonk called at the home of Mr. and Mrs. John K. DePuy Sunday evening.

Mr. and Mrs. Joseph Smith visited her parents, Mr. and Mrs. Delevan Smith, Sunday.

Mr. and Mrs. Earl Stokes and baby were visitors at the home of Mr. and Mrs. Alex. Stokes Sunday. Myron DuBois entertained friends from Kingston Sunday.

Mr. and Mrs. John C. Teagle have sold their property situated near Mt. Real.

Miss Ida Sheeley called on friends

Great Shoe Sale!

We have gone through our stock carefully and selected out all the pairs of Oxfords and Pumps of which we have only a few of a kind. We have placed these Oxfords and Pumps by themselves on—

OUR BARGAIN TABLES

We have attached prices to them that will astonish you, and that will sell the shoes at once.

Men's \$4.00, \$5.00 and \$6.00 Shoes and Oxfords are marked at \$2.98 and \$3.98.

Women's \$5.00, \$6.00 and \$7.00 Oxfords and Pumps are marked 98c, \$1.98, \$2.98, \$3.98

Children's \$2.00, \$3.00 and \$3.50 Oxfords and Pumps are marked at \$1.98 and \$2.98.

These shoes have been our best sellers—nothing the matter with the shoes except we have only a few pairs of a kind.

We have a size to fit most any foot. Find your size and you will have found a Prize!

This sale should be called a regular "SHOE SNAP." Call soon or the shoes won't be here.

JOHN J. LARKIN

17 Broadway, Mansion House Building, Downtown.

John Hays Hammond, Jr. and George O. Smith.

and George O. Smith, of the U. S. Coal Commission, are moving heaven and earth, in conjunction with President Coolidge, to avert a strike in the anthracite coal fields.

HIGH WOODS.

High Woods, Aug. 15.—Mrs. Halverson and granddaughter Mildred Everson, of Union Hill, are spending some time here.

The Rev. C. L. Chist's family and some friends are at his farm here for a few weeks.

Mildred York of Saugerties spent the week end at her grandparents, Mr. and Mrs. Lewis York.

Mr. and Mrs. A. Hixley of New York are spending their vacation with her mother, Mrs. C. Vredenburg. A party of friends from Kingston were entertained by her last Friday.

The Rev. Mr. Wallace of Albion, occupied the pulpit Sunday. He gave a sermon on the importance of serving God and a prayerful life. His text was from Chronicles and St. John gospel.

J. Toners of New York spent his vacation days with his family, who have rooms at Lewis E. Snyder's for the summer season.

Mrs. Bruce, who has been visiting with Mrs. A. G. Friedrick for a month, has returned home.

Mrs. Fred Shneider and four children were at her mother's, Mrs. Anna C. Snyder's, last Thursday.

Aubrey Whiteley and family are spending a few days at his summer home.

NEW HURLEY.

New Hurley, Aug. 15.—Mr. and Mrs. Frank Decker of Newburgh were guests at the home of Mr. and Mrs. George Sherwood on Sunday.

The Rev. A. L. Burger, a former pastor of this place, will administer communion in the New Hurley church Sunday morning, August 19, at 11 o'clock standard time.

Mr. and Mrs. Conrad Noll and Mrs. Isaac Sutton spent last Tuesday with Mr. and Mrs. Rudolf Noll at Walker Valley.

William Hotelling has purchased a new Jewett touring car.

Edward Powell is improving his house by giving it a new coat of paint.

Mr. and Mrs. Joseph Parks of Walden spent Sunday with Mr. and Mrs. Valentine Garrison.

The Sunday school picnic will be held in the grove on Wednesday, August 22. Music will be furnished and all kinds of refreshments for sale. A ball game in the afternoon and sports for the little folks. Everyone is invited.

ATWOOD. Atwood, Aug. 15.—There will be an ice cream and basket party held on the school grounds Saturday evening, August 18. Ladies are to bring a basket with lunch for two, with name in basket.

Beginning of Y. M. C. A. The Young Men's Christian association was founded in England by George Williams, a London dry goods merchant, in 1844. On the occasion of its jubilee its originator was knighted. The Y. M. C. A. was founded in 1855, in two places simultaneously. In 1877 the two branches united.

The Children's Preference

Our Peanut Butter buyer, who lives in New Jersey, has four kiddies who are regular Peanut Butter "Cranks." They want the very best. They know what they want—most kiddies do.

One day their daddy brought home a jar of Pocono Peanut Butter—that started it. Every week now he carries several jars of Pocono Peanut Butter all the way home from Brooklyn.

There's a reason for this childish preference. Our peanuts come from Virginia, big Jumbos they're called. Only the best of these are selected, first to be roasted to a turn, then ground and finally packed, rich in their natural oil, with immaculate cleanliness—nothing is added and nothing taken away—just pure peanut butter of the best quality.

This week (only) we sell a jar of Pocono Peanut Butter for 18c, reduced from 22c. A real inducement for you to try a jar.

Pocono Peanut Butter, large glass 18c

Puffed Rice, package 13c

FRECKLES

Now is the Time to Get Rid of
These Ugly Spots

There's no longer the slightest
need of feeling ashamed of your
freckles, as Othine—double strength
—is guaranteed to remove these
homely spots.

Simply get an ounce of Othine—
double strength—from any drug-
gist and apply a little of it night
and morning and you should soon see
that even the worst freckles have
begun to disappear, while the lighter
ones have vanished entirely. It
is seldom that more than an ounce
is needed to completely clear the
skin and gain a beautiful clear com-
plexion.

Be sure to ask for the double
strength Othine as this is sold under
guarantee of money back if it fails
to remove freckles.

IT'S always a good
time to buy Good-
year Tires, for, as

GOOD YEAR

Make Your Own BUG KILLER P. D. Q.

You can easily make at home a full
quart of the strongest bug-killer for
35c, enough to kill a million bedbugs,
roaches, fleas and ants. This recipe
will not burn, rot or stain clothing,
and is entirely different from any
other formula we know of, as this
will kill the eggs.

Process of your druggist a 5c package of
(Pokey Devil) Quinine P. D. Q. then you will
have the chemical made expressly to rid hotels,
hospitals and dwellings of pesky bedbugs and
other insects.
Impossible for the pesky devils to resist with
the proper use of P. D. Q.
Special Receipt one 22.50—makes five gallons.
P. D. Q. can be purchased in sealed bottles,
double strength, liquid form.

McBRIDE DRUG STORES.

BRITAIN LOSING COMMAND OF SEA

Supremacy of French Aircraft
Makes Gibraltar Worthless.

MAY BECOME MINOR POWER

After eight centuries of costly and
difficult endeavor to obtain possession
of the natural citadels commanding
trade routes by sea, England finds her-
self stripped of the command of those
routes.

The formerly strategically unrivaled
Gibraltar and Suez are to be had for
the taking by any nation capable of
attacking from the air.

"France could transform the Medi-
terranean sea into a French lake
within the space of 24 hours," an au-
thority closely connected with the Brit-
ish air ministry asserted.

"There is no doubt of French su-
periority in the Mediterranean," the
authority continued. "We are unable
to determine the exact French air
strength in North Africa, Algeria and
Syria, but we know it to be large.
Gibraltar and Suez would be at a seri-
ous disadvantage against air attack."

If Gibraltar and Suez lose their
potency as impregnable bottlenecks
from which England has been accus-
tomed to exert her will, then the
greatest seafaring nation in the world
must look to some other element for
supremacy. It is pointed out.

That other element is the air.
Now, its friends, late allies in the
war, but unable to afford the spend-
ing of vast sums on armament, Eng-
land and France are girding their loins
to determine the ownership of the air.

France Ahead of Rival.

Despite the comforting effect of the
war and a feeling that a common
enemy exists, the fact remains that
England and France are naturally op-
posing forces and have been actively
opposing each other on more than half
the pages of recorded history.

Any nation capable of interfering
with English intercourse with her col-
onies in Africa and the East is regard-
ed as a serious menace to the British
empire.

France, by means of her air force in
the Mediterranean, could interfere now
and under present air construction
plans she will remain in the lead and
therefore continue to be a potential
threat to the empire.

By January 1, 1924, France will
have in commission 2,189 fighting
planes, according to figures supplied
in London. Some of these will go to
reinforce the Syrian and Algerian
squadrons. Others will be concentrated
at home.

On January 1, 1924, England will
possess 600 fighting planes, less than
one-third of the French total.

These 600 planes will be scattered
over the face of the globe. The French
planes, in comparison, will be mobil-
ized.

The 410 planes at present compris-
ing the Royal air force are based in
eight widely separated districts.

Seventy-two planes are in India.
Ninety-six are in Iraq. Sixteen are in
Palestine. Twenty-eight are in Egypt.
Forty are in Constantinople. Sixty
are with the navy. Eighteen are in the
Mediterranean. Eighty are in Eng-
land.

Within the next 12 months the air
ministry is authorized to bring the
total up to 600.

Minor Power in Air.

With the completion of the 600 ships
England will find herself a minor
power with her ambitious neighbor the
only major force in the air. The situa-
tion is disturbing to all Englishmen,
warmongers and pacifists alike.

At Malta, England has carved out
an air base from solid rock. If Gibrat-
ar, once the symbol of stolid impreg-
nability, is to be worth keeping, the
same must be accomplished there, air
authorities agree.

Lloyd George and the others who
fought under the banner of "No More
War," are admitting that their cher-
ished aim has not been realized.

There is a growing suspicion that
on the continent of Europe there is a
great power convinced that the time
for seizing an empire is not yet passed.

Italy is unofficially protesting that
France is subsidizing a Jugo-Slavian
fleet for no other purpose than the
domination of the Adriatic.

Russia charges that France is sub-
sidizing Poland and Rumania for
eventual use of their armies against
the soviets.

England unofficially interprets
French air power in the Mediterranean
as a threat against English-controlled
trade routes.

The French air fleet, according to
reliable authority, is greater than the
other combined fleets of the world.

BURY CURRENCY IN JUGS

Jugo-Slavia Peasants' Distrust of
Banks Has Singular Manifestation.
There is today in Jugo-Slavia a
scarcity of bank notes of large de-
nominations, and earthen jugs. The
peasants are hoarding the former and
hiding them away in the latter.

The peasants' bank is a jug buried
in the ground. As they have become
very rich in the last few years, their
paper money accumulations, buried in
the ground as they used to hide copper
and silver coin before the war, were
eaten up by mice and rats. Now the
peasants have learned to put their pa-
per money in tightly-corked jugs;
hence the scarcity of jugs.

"Big Ben."

The name Big Ben was given to the
bell in the clock tower of the houses of
parliament, London, England, after Sir
Benjamin Hall, who was the chief com-
missioner of works at the time the
bell was cast.—Literary Digest.

A Longer Car
A Larger Car
New Body Designs
Greater Beauty
Greater Comfort

The New Hupmobile

We feel sure that every Hupmobile owner, or even observer, will agree with
us that in order to dominate its field, the Hupmobile has only to improve
upon its own past.

In this new Hupmobile, that triumph has been accomplished in every im-
portant essential—with results in performance so brilliant that they validate
more strongly than ever its legitimate right to be called the best car of its
class in the world.

We direct the attention of Hupmobile owners in particular to these results,
which they can absolutely count upon in the new Hupmobile:—

Noted as the Hupmobile has always
been for settling down instantly to
smooth, steady straight-ahead
going, this new Hupmobile has
a coasting, skimming quality that
surpasses any Hupmobile which
has preceded it.

Prized as the Hupmobile has always
been for smooth operation, this new
Hupmobile is even more free from
noticeable vibration.

Celebrated as the Hupmobile has
always been for snapping away in the

flash of a second, this new Hup-
mobile is even quicker on the trigger
than any Hupmobile before it.

Easy-riding as the Hupmobile has
always been, this new Hupmobile—
in front and rear alike—outdoes all
of its predecessors in bump-absorb-
ent spring action and restful riding.

Comfortable as the Hupmobile has
always been, this new Hupmobile
is more roomy and affords greater
convenience to driver and pas-
sengers alike.

These magnificently improved performance qualities are produced by the engineering and other changes detailed below

The new Series R-12 Hupmobile embodies
improvements in motor, clutch, and trans-
mission, in addition to a longer chassis;
and new body models throughout.

The net results of the engineering im-
provements are longer life, still smoother
operation, better engine operating bal-
ance, an increase of power, and pronounced
increase in acceleration and economy.

Heavier crankshaft, counter-balanced,
with bearing areas 20 per cent greater.
Light-weight alloy pistons and connect-
ing rods.

Maximum increase in power, about 10
per cent.

New two-plate clutch affords silent gear
changes at all speeds.

Transmission gears high carbon alloy steel,
oil-treated and tempered—larger, heavier,
longer-lived.

Wheelbase lengthened to 115 inches.
Length of front springs increased to 37 3/8
inches; the rear springs are increased 5
inches, to 56 1/2 inches.

Frame now 6 inches deep. Five heavy
cross members.

Spring shackle bolts increased 50 per
cent in bearing surface.

Radiator 2 1/2 inches higher, improving
both appearance and cooling efficiency.

Newest style full crown fenders.

Drum headlights on all models—nickel-
plated on the special types.

Touring Car—Finish, new Hupmobile
blue, striped in lighter blue. Top clear
vision type, with no rear upright bow.
Each storm curtain has rigid metal frame
which prevents the curtain light becom-
ing scratched or cracked, makes curtains

fit even more closely, and their installa-
tion much easier and quicker.

Roadster—Body entirely new. A fast,
smart, rakish runabout.

Special Touring and Roadster—Steel
wheels, nickel-plated radiator, headlights
and cowl lights; scuff plates.

Sedan—A graceful sweeping curve marks
the line where body and cowl meet; rear
body corners gently rounded, windows
reduced in height, and made wider. Up-
holstery very durable gray cloth, body
hardware bright nickel. Equipment in-
cludes rear view mirror.

Coupe—Four Passenger—Gracefully
rounded curves instead of bevels and
corners. Upholstery, body hardware and
equipment same as Sedan.

Coupe—Two Passenger—Roof slightly
lower, space under rear deck increased.

Driving the New Series R-12 or riding in it is a real revelation. See it Now!

Open Evenings.

KINGSTON, N. Y.

BOYS' DIVISION OF "Y" WILL HIKE TOMORROW.

The boys' division of the Y. M. C.
A. will enjoy a hike Friday to Lake
Mohawk. The New Paltz bus leaves
at 7:30 o'clock. On the return trip
the boys will march down the moun-
tain to High Falls, where they will
take the High Falls bus home at
5:30 o'clock. The boys are request-
ed to bring lunch and 65 cents bus
fare.

Plans are being made for a "dad
and son" outing to be held Friday
evening, August 24. The party will
leave the "Y" at 6:15 o'clock in the
evening and return at 10. Those
who attended the last outing thor-
oughly enjoyed it and a large party
is expected. Good eats again will be
enjoyed. Those intending to go
should sign up with Mr. Miller at the
Y. M. C. A.

PINE GROVE.

Pine Grove, Aug. 16.—Mrs. C.
Snyder and Mrs. Brown of Hillside
Cottage, and Mrs. Chester Bell and
children of Brooklyn were Friday
evening callers of Mrs. Henry Bur-
ton.

Miss M. A. Spielman has returned
to Millbank Cottage after spending
several weeks among relatives in
Kingston and Saugerties.

Gulick Burton of Bearsville spent
Sunday with relatives at Millbank
Cottage.

were Sunday guests of Mr. and Mrs.
Harvey Cole.

Chester Bell, wife and son, Har-
old, have returned to their home in
Brooklyn after spending a vacation
with her parents at Hillside Cottage.

J. Williams is spending a few
days with his family at North Pine
Grove.

Percy Mykran and family were
over Sunday guests of her parents in
Blue Mountain.

Miss Mary Alice Spielman enter-
tained some neighbors on Sunday
evening.

SAUGERTIES.

Saugerties, Aug. 16.—Mrs. Bert
Rogers, who was taking care of Mar-
garet Rogers, returned to her home
in Verona, N. J., over a week ago.

Mrs. MacLure, who was staying
with her mother, Mrs. Mendoza, re-
turned to her home in Brooklyn.

Mrs. Freedom of Newark, Miss
Kirstine of New York city and Mr.
Hustler of Newark were week end
guests at the home of S. P. Cole.

Mrs. Stephen Cordes has taken a
trip to Scranton, Pa., to visit her
cousin.

Elsie Engelman of Saugerties
spent a few days with her parents,
Mr. and Mrs. Mott.

Mr. and Mrs. George Grenlich are
at the home of Mrs. Mendoza.

Mrs. Mount is entertaining com-
pany.

Mrs. DeGraff of Ulster Park, with
her son and daughter are guests at
the home of Willson DuBois.

Mr. Ward of Chicago, Ill., is spend-
ing some time at the home of S. P.
Cole.

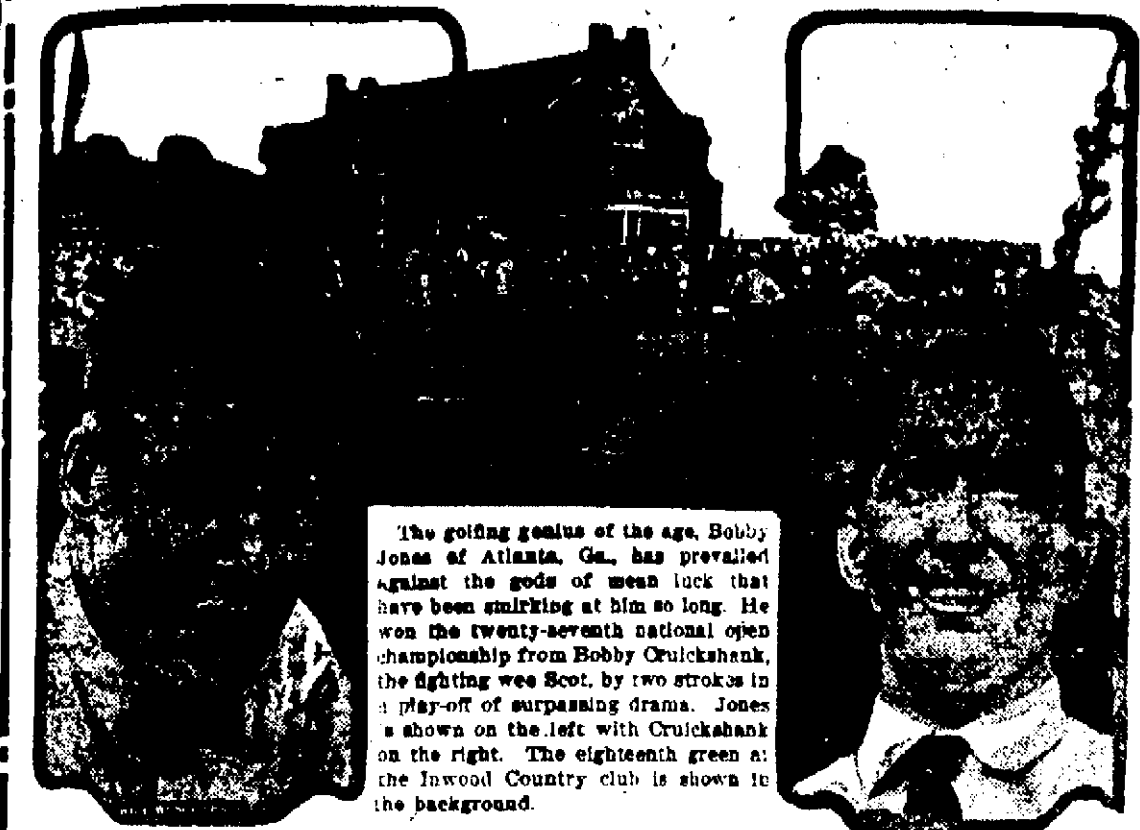

Packing Cases, Nuntie G. Tsokos, Mrs. Catherine Adams, Mrs. Natalie Baker

Following a family quarrel Nuntie George Tsokos, an Albanian paper mill hand, of Franklin, N. H., killed
his 28-year-old wife, Natalie, and her 70-year-old mother, Mrs. Catherine Adams, hacked their bodies to
pieces and placed them in two packing cases. He hired an automobile to carry the boxes to Medford N. H.,
where he threw them into a vacant lot. The suspicions of the chauffeur were aroused and he notified the
police, who found the bodies and arrested Tsokos.

BOBBY JONES IS WINNER OF OPEN GOLF CHAMPIONSHIP

The golfing genius of the age, Bobby Jones of Atlanta, Ga., has prevailed against the odds of mean luck that have been smothering him so long. He won the twenty-seventh national open championship from Bobby Cruickshank, the fighting wee Scot, by two strokes in a play-off of surprising drama. Jones is shown on the left with Cruickshank on the right. The eighteen green at the Inwood Country club is shown in the background.

Baseball Notes

The name of Ham Hyatt again appears in the line-up of the Vernon team.

Pitcher Blume, a right hander, has been secured from the New York Nationals by Memphis.

The first baseball league in Australia was organized this year. It consists of eight clubs.

Three of the first four hitters in the National league batting averages are members of the Brooklyn team.

Elmer Reiger, veteran pitcher of the Vernon club of the Pacific Coast league, has been unconditionally released.

Art Tretry, Charlotte outfielder, who was sold to Birmingham at the close of last season, is back with Charlotte.

A baseball pessimist says that an observation of no importance is that Pat Ragan has been named captain of the Phillies.

Of Fred, veteran pitcher of the Eastern league, has been shipped by the New Haven club to Wilson of the Virginia league.

Outfielder Clarence Pitt, who has been hitting close to .400 all season, has been claimed by the Baltimore Orioles on waiver.

Ed Barney, pinch hitter on the battle team of the Pacific Coast league, has been sold to the Galveston club in the Texas league.

Urban Shocker of the St. Louis Browns can beat all in the American league except the Yankees, the team he most desires to humble.

Bob Wright, pitching ace of the Toledo American Association club, jumped his contract to go with the Cubs club of Kenosha, Wis.

Arthur Sullivan, a product of the independent fields of Greater Boston and mentioned as a big league prospect, has been taken on by Pittsfield for trial.

Jimmy Doyle (Farrington), who has been with Beaumont and Houston for the past three seasons, has been shifted to the Waco team of the Texas association.

The Pittsfield team wasn't in bad enough shape, but bad luck had to be piled on when Howie Baker broke a leg. Baker was the leading hitter to the team.

A mark that probably is a record for shortstops was set by Joe Boley of the Baltimore Orioles when he played two consecutive games without having an assist.

Colgate baseball nine, by reason of successes of exceptional merit including victories over Princeton and Yale, will receive in addition to the varsity letter, gold baseballs.

Jack Hendricks of Indianapolis made a good deal when he put over the swap with Columbus that gave him Bill Burwell, for Bill is pitching mighty good ball for the Hoosiers.

Paul Sparaw, third baseman, once with Evansville on option from the St. Louis Browns, then shipped to Mobile, which club still has a technical claim to his services, has been taken on by Pawtucket.

San Francisco's young pitcher from the Iowa, Timmy Patrick Buckley, who has been the subject of much comment because of his interesting personality, had been shipped to Omaha in the Western league for "seasoning."

Danny Long, scouting for the Chicago White Sox, is reported as having told Manager Kid Gleason that Paul Head of the Salt Lake team is just the man needed for the Sox to put them in the American league pennant fight.

Gladstone's Recreation. Gladstone, who very rarely lost sleep to the result of political worry, found solace in music all through his career, though it is possible that his woodmanship was not less useful in distracting his mind, and backgammon was sometimes requisitioned as well.

Own Wallop Is Fatal

A variation of that rare occurrence in pugilism—the knocking out of a boxer by a blow delivered by himself—was reported from Monroe, La., where Errell Paul of Lawton, Okla., put himself to sleep.

Versatility of Haney

Is Decidedly Unusual

Billy Evans, the umpire, pays this tribute to Haney of Detroit: "The fact that versatility among infielders is almost a forgotten art makes the play of Fred Haney of Detroit stand out as decidedly unusual. Haney is unquestionably one of the most valuable utility players in either major league. It means considerable for a club to have a player of Haney's type in its lineup."

BASEBALL SHOULD BE

FORM OF RECREATION

Game Can Work Serious Injury

to Mind of Some Fans.

Baseball, except for those that play it professionally and regard it as their bread and butter, should be merely a form of recreation, a game to go out and watch of an occasional afternoon. It should never be allowed to exclude everything else from one's thoughts, writes William Kirk, in the Baltimore News.

There are thousands of fans, however, that are literally mono-maniacs on the subject of baseball. Nothing else matters. Baseball is their life food. Destroy it and you will destroy them with it.

There is no doubt that an exaggerated idea of the game's importance can work serious injury in a mind that might otherwise have remained normal enough. We have known hundreds of fans that never seemed to give a thought to anything outside of a baseball park, not only during the regular playing season, but the year around. One naturally wonders how such mortals manage to exist, for there is no monetary reward that goes with being a baseball bug.

To this extent baseball is a dangerous thing. It would be hard to estimate the exact amount of damage that

Babe Ruth.

has been done by the game along these lines, unintentional damage, of course, but damage nevertheless. Thousands of young fellows who are at an age when they should be paying serious attention to their own futures are sweating blood and worrying about whether Babe Ruth is going to bang out as many homers this season as he made last year.

Baseball rooters should try to put their pet game in the mental pigeon-hole where it belongs. They should never allow it to hog the whole mental desk.

No game that takes all of a fan's thoughts and mental energy has anything which it can give him in return for the sacrifice.

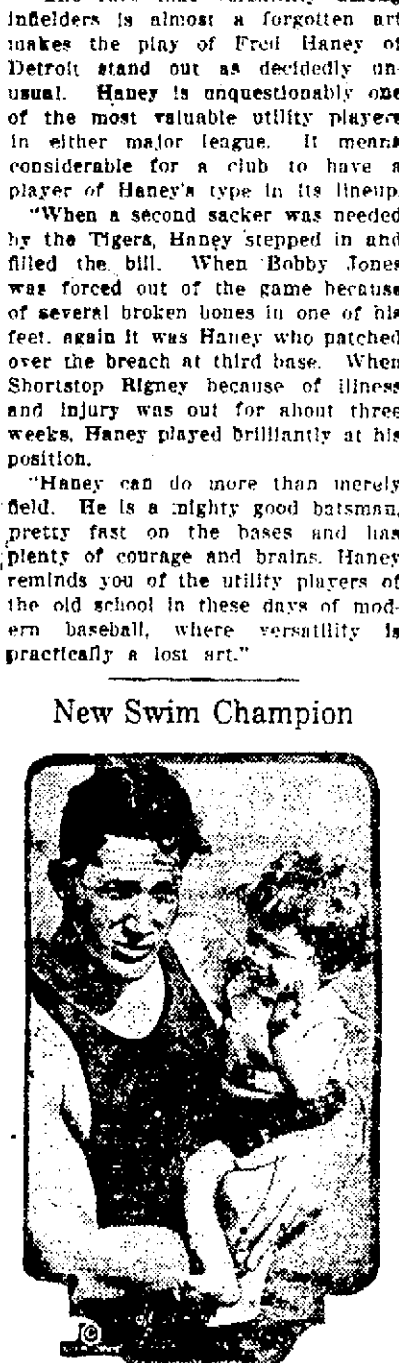

France the Pioneer.

The first governmental employment bureau originated in France. In 1848 one such bureau was established in each of the municipalities of Paris. The first agency of the kind in England was opened in 1835, and the first in this country in Ohio five years later.

New Swim Champion

Photograph is of Norman Ross, Jr., and his illustrious father, Norman Ross, world famous champion swimmer.

Father Ross desires nothing more than that his little son shall be an expert swimmer and has started early to interest him in the sport.

Photograph is of Norman Ross, Jr., and his illustrious father, Norman Ross, world famous champion swimmer. Father Ross desires nothing more than that his little son shall be an expert swimmer and has started early to interest him in the sport.

Sporting Squibs of All Kinds

As a means to wealth the mailed fist has nothing on the eight-ounce glove.

The summer will soon be over as football schedules are beginning to appear.

Pennsylvania State college has joined the Intercollegiate Golf association.

In England races are held where more than 80,000 pigeons are entered in the derby.

Mr. Dempsey says he must fight oftener. He says nothing about fighting for a lower rate.

It is a poor prize fight expert who does not have an alibi that sounds as plausible as his original guess.

Henry F. Sullivan of Lowell, undaunted by three failures, will again try to swim the English channel this summer.

Another problem before the public demanding innocent amusement as well as sustenance is the high cost of prize fighting.

With 982 crew candidates, more students reported for rowing at Harvard this year than at any other college in the country.

If the old fellows were to give up golf who would pay the dues to keep up the clubs so that the young fellows could enjoy themselves?

Beauty.

As with the man who inquired whether he had not attained wisdom, so with anxiety about enjoying beauty, the answer must ever be, "It might have been, if you had not thought about it." Beauty has to come by the way.—W. R. Lushaby.

Alpine Railroads. One of the most interesting railroads through the Alps is the Gothard line with its series of 59 tunnels connecting Switzerland and Italy. The St. Gothard tunnel is nearly ten miles long and is older than the Simplon. The chief difference is in the grade. The Simplon is at a much lower altitude, and can be used for express service and can carry freight at a much lower figure. The air in the St. Gothard tunnel is always fresh and free from smoke. Another notable European tunnel is the Mount Cenis, which was the first Alpine bore to place France in direct communication with Italy. This tunnel was completed in 1872. Since the building of these and other tunnels through the Alps, the famous old passes which have figured so conspicuously in history are becoming less frequented.

Anemones.

The pretty cup is so glossy it seems to burn with a white light. The secret of its incandescent beauty is that decided purple washing the outside of the cup. This dark background makes a reflector of the white cup, so that it sparkles in the sunshine like a tiny mirror. Often the purple tinge seeps through to the inside of the cup, streaking it most delightfully. As for the buds, they are rose and purple beads tipping their halcyon stems. A group of wind-flowers make a dainty tea-set for butterfly parties.

National Music.

Those who are able to express simply and powerfully the music of different nations, and know how to listen to it as it deserves, need not make a tour of the world in order to visit their monuments, to read their books or to traverse their plains, their mountains, their gardens, and their wildernesses. A Jewish air at once transports us into the synagogue; a pibroch conveys to us the Highlands of Scotland; while all Spain is revealed to us by a melody of that fair land.—George Sant.

Antarctic Diet.

Mustard and cress grown on blankets, and the tops of baricot beans cultivated in pots, were at times the only "green" food available to the Antarctic explorers on board the Quest.

Thought for the Day.

Some of the hardest knocks we get are delivered by our supposed friends.

SO. DAKOTA TO JUMP "GAS" PRICE

From 14 to 20 Cents as Result of Governor's Deal With Independent.

Higher Prices Promised to All Mid-West.

By Telegram to The Freeman.

Chicago, Aug. 16.—A return to higher gasoline prices as sudden as the drop which motorists welcomed two days ago loomed today and for the same reason, a shift in the South Dakota situation.

The board of directors of the Standard Oil Company of Indiana, meeting today will consider a boost from the 15.4 cent price here as the result of the agreement of Governor W. H. McMaster of South Dakota and independent producers to jump the gasoline price in that state from 16 to 20 cents.

Governor McMaster's cut to 16 cents at the highway filling stations brought the action of Standard Oil Company in making comparable cuts in 11 mid-western states.

Independent producers in South Dakota protested to the governor that the 16 cent rate was ruinous to them.

R. W. Stewart, chairman of the board of the Standard Oil Company of Indiana, admitted that the next price change may carry prices even above 20 cents and declared that McMaster's change of front supported the Standard's contention, that the action in cutting from 26 to 16 cents was premature and not based on sound production costs.

Motorists in an eleventh hour rush continued to take all cheap gasoline they could handle, a situation which city officials claim has caused a fire menace through the storage of gasoline in every available container.

CURRENT OFFERINGS

AT THE THEATERS.

"The Strangers" Banquet, "American novel of a great shipyard written by Donn Byrne, has come to the screen and will be seen at Keane's tonight, Friday and Saturday. It has been filmed by that master director, Marshall Neilan, in association with Goldwyn Pictures Corporation. The use of an entire shipyard was obtained for filming the exterior. Neilan, his actors, and hundreds of the workmen at the yards made use of them, after working hours, for weeks.

Pictures of the Leonard-Tendler fight are being shown at the Opera House.

"My Old Kentucky Home," a motion picture of sweet mother love which weaves a romance the like of which has never been known before for human interest and heart throbs and named after the famous ballad, is the offering at the Auditorium today for the benefit of the Boy Scouts.

For Furniture Designers.

A recent exhibition of old American furniture contained a rocking chair of the Windsor type which had a drawer under its seat. Why not popularize this idea in chairs built today for the diminutive home whose just boast, "I am easy to take care of," sometimes calls forth the answering wail, "Yes, but where shall I put my things while I do it?"

Opportunity a Sycophant.

Opportunity is the everything else always ready to call on a man who is already successful. -London Answer.

COLONIALS WIN EASILY

From Frank Morgenweek's All Stars On Wednesday Afternoon. By a 9-4 Score. Culliton and Culliton Do The Hurling. Culliton Brings Record of Successive Scoreless Innings Up To 11 And Then Stops.

The Colonials had very little trouble winning from Frank Morgenweek's All Stars at the Fair Grounds on Wednesday afternoon. The game was one sided from the fourth inning on and Morgenweek's bunch weren't in the running at any time. The final score was 9-4. Jimmy Clinton was in the box at the start of the game but he was touched up so freely that at the end of the fourth inning he was relieved by F. Robertson.

Culliton Shows Up Well. Once more Pat Culliton showed the fans that the training which he has received in New Paltz has been the right kind of training. Pat gave the All Stars just one run during the five innings that he was in the box and allowed only six hits. Furthermore only one of the six hits was knocked to the outfield. As was the case in the game that he pitched Saturday the New Paltz hurler did not walk one man during the time he was in the box. Three men were retired by the strikeout route.

Culliton's String Broken. Bud Culliton went in for the last three innings and in the eighth, which was the last inning as the game was then called on account of darkness, the All Stars scored three runs which broke Bud's string of successive scoreless innings. Up to that time he pitched 41 scoreless innings in succession. The fact that Short who played left field in the eighth in place of Dahn, slipped in going after a fly, was responsible for the first run being scored on Culliton.

In the fourth inning, Swat Russell, in an effort to live up to the reputation that he had made for himself on Sunday, knocked home a run over the left field fence with Jack Robins on the bags. Although that feat startled some of the fans who did not happen to be at the game on Sunday it did not startle them half as much as when, in the sixth inning, Culliton hit a home run over the same fence. When Bud connects it goes.

All Stars Field Poorly. Morgenweek's All Stars put up a poor exhibition of fielding. Without looking at the number of errors, the fact that the All Stars managed to get eleven hits to the Colonials' nine is sufficient to prove the above statement. And it not only proves the above statement but it also establishes the fact that the Colonials put up a very good exhibition of fielding.

Put Gets Out of a Hole. In the first inning Pat showed the fans that he isn't one of these pitchers who gets rattled when they get in a hole. His by Mueller and F. Robertson and a stolen base put men on second and third with only one out. However, Pat put enough on the ball to make A. Robertson and Benny Borgman fly out and thus retire the side.

Borgman and Husta. Borgman played short for Morgenweek and C. Husta held down the hot corner. Benny did not have much of an opportunity to appear around but made good on all his chances. Husta made some nice catches on foul balls but he made one error also.

Colonials Score in First. In the very first inning a hit by Field, a walk for McCue and a right field clutch by Dahn gave the Colonials one run.

One More in Third. A walk for Deegan, a stolen base by Deegan and a hit by McCue gave the Colonials one more in the third inning.

All Stars Get One in Fourth. Hits by Borgman and Husta gave the All Stars their only run from the Colonials.

Five for Colonials. A home run, two singles, an error and a wild pitch were all responsible for five runs being scored by the Colonials in the fourth inning.

Score in Sixth and Seventh. Culliton's home run came in the sixth inning and a hit, a stolen base, and an error by Borgman gave the Colonials one more in the seventh.

Three for All Stars. Two hits, a walk and an error gave the All Stars three runs in the eighth inning.

After this inning the game was called.

TAGGING ALL THE BASES IN THE BIG LEAGUES.

Like the shrinking violet, the Giant lead is exactly two games less today as a result of the Reds winning a double-header from the champions, 6 to 3 and 19 to 5. Luque and Nixey pitched winning ball while the Reds mated the Giants' staff.

The Tigers made judicious use of all base hits to beat the Athletics 7 to 5. Veatch's homer with two on being a deciding factor.

McInnes's single gained the Braves a ninth inning decision over Alexander and the Cubs, 3 to 2, the hit being preceded by Southworth's double with two out.

On the theory that he home runs best who home runs last, the Pirates gained a 4 to 3 edge over the Phils. Traynor's home run off Dehan in the ninth ending it all. Previously, Walker had put the Phils in front with a homer at Cooper's expense.

George H. Ruth, the well known left fielder, scored number 39 for the season but the Yanks lost to the Browns 5 to 3. Shocker, regaining his mastery of the Huggins entry for the time being.

Rentner's commendable pitching kept the Dodgers a 7 to 1 victory over the Cardinals.

Ferguson and Elmke staved off the late rush of the Indians in the seventh and eighth and the Red Sox won, 8 to 6, thanks to chasing Coveleskie and Morton at a very early moment.

The White Sox got an even break by winning the count game, 4 to 3, by beating the Senators but taken the opener, 5 to 1, with a four run tally at Robertson's expense in the seventh inning.

BEAULIEU CASINO IS "BROKE" FOR FIRST TIME

By Telegram to The Freeman. Deauville, France, Aug. 16.—The doors of the famous Beaulieu Casino, the biggest gambling place in Europe, were closed today, for a heavy run of luck against the house had broken the bank.

After paying out 10,000,000 francs, the Greek-Armenian syndicate backing the game, closed the doors for the first time since the Casino was opened.

Mistaken Identity. A young millionaire showed a black eye to a beautiful film star, and said reproachfully: "Why did you knock me down when I kissed you in the dark conservatory?" "Forgive me, dear one," the beautiful star explained, "I thought it was my husband."

Russell, Culliton. Stolen bases. See, Deegan, F. Robertson, McCue, Robins, Russell (2), Short. Left on bases. Colonials 8; All-Stars 9. Hits off Culliton 6 in 5 innings; off Culliton 6 in 4 innings; off Robertson 3 in 3 innings. Bases on balls, off Culliton 11; off Robertson 1; off Clinton 4.

Struck out by Clinton 5; by Robertson 7; by Culliton 2; by Culliton 2. Wild pitch, Clinton. Empire State Stadium and Kervan. Time of game, 1 hour 50 minutes. Attendance 800.
